Beautiful – Music – Thoughts – Pictures -- Words (Written / Spoken) Turn Water Into Beautiful Crystal Snowflakes, When Frozen

When directing words & thoughts at water, Dr Masaru Emoto discovered that the ones with **(+)positive** energy formed beautiful snowflake shaped crystals and the **(-)negative** words & thoughts formed ugly misshaped blobs, when the water was frozen to (- 25 C) below zero, and then magnified 200 – 500 x's, using “**Dark Field Microscope,**” with photographic capabilities “Thoughts frozen in time.”

Showing a picture of Dolphins to water, creates crystal Snowflake

Also see page # 29 ... “Miracle of Blessing Power”

Small bottles of water have ...

1. words attached to it
2. pictures shown to it
3. music played to it

→ Because frozen crystal snowflake have a very short life cycle, the best opportunity to see & to photograph one forming, is to **take 50 samples** of water (0.5ml size drops) from each bottle, & put each drop in its own “petri dish.” The water drops are then frozen for 3 hours at (- 25 degree C) in a freezer located within a larger walk-in “**Freezer-Lab-Room**” The room is a precisely controlled environment, kept at (- 5 C), making it the perfect place to use “**The Dark-Field Microscope** to photograph the frozen water crystal snowflakes. The crystals are magnified between 200 – 500 times their original size.

Remember, a babies body is over 90 % water ... a young adults body is about 80 % water ... the bodies of most people over 60 is about 70 % water, & even less with age, (because, one of the hardest things to get a person over 50 to do is drink lots of water, rather than tea or coffee, which dehydrates). So, if our thought & words can do this to water, just imagine what they are doing to us, **Emoto Frozen Water Crystal Lab** <http://www.hadousa.com/makingof.html> .

Mr. Emoto discovered that water was extremely sensitive to vibrations, & not only physical vibrations such as **music and speech**. He devoted several years to photographing the formation of ice crystals from water which had been “treated” in various ways. He had monks recite prayers over the water, played music for it (the water), even taped words on the outside of small vials of water, all with remarkably distinctive effect. Since water constitutes some 70% of both the human body and of the earth, his thesis is that, these experiments demonstrate empirically the direct physical impact our thoughts, speech and emotions have, not only on water, but on these larger, more complex systems which are largely comprised of water.

This Science has been – **Known** -- for thousands of years

Hiding in plain sight

Hi Mike ... <https://mayanmajix.com/articles.html> . (2005), Have I emailed you this interesting article before, about Heart-Math ??.

“The Power of The Heart” ... <http://www.paulapeterson.com/Earthcode.html#Heart%20Math> ... **Thinking with ♥Heart Brain**

Health Benefits of listening to the Heart Brain talk to the left brain, brain stem, lower mind. (. <http://www.heartmath.org/> .)

Scroll down to the diagram of ... Heart centered magnetic energy field lines radiating out from the Heart center of the body.

The heart is the **most powerful generator of electromagnetic energy in human body**, producing largest rhythmic electromagnetic field of any of the body's organs. Heart's electrical field is **about 60 times greater in amplitude than the electrical activity generated by the brain**. This field, measured in the form of an electrocardiogram (ECG), can be detected anywhere on surface of the body. Furthermore, the magnetic field produced by the heart is **more than 5,000 times greater in strength than the field generated by the brain**, and can be detected a number of feet away from the body, in all directions, using SQUID-based magnetometers (Figure 12). Prompted by our findings the cardiac field is modulated by - different emotional states (described in the previous section). We performed several studies to investigate the possibility that **the electromagnetic field generated by the heart may transmit information that can be received by others**.

Lots of mapping of brain frequencies have taken place, but the Heart, he points out, is much more powerfully electrical than the brain. Heart activity must be **screened out** when doing an EEG on brain. **What he found is as significant as it is amazing**. (When going to war, and chemically poisoning our food and environment, or lack of forgiveness, feelings of hate, etc., etc., etc., you must also **screen out ♥Love**).

(-) **Negative Emotions ... (Physical, “Lower Mind” consciousness ... Brain Stem - B.S. – Left Brain). Brain Stem – is most primitive part of brain, and is the 1st to develop. It deals with survival instincts of, fight or flight, greed, frustration, anger, hatred, Wars, unhappiness, jealousy, fears, negativity of all kinds. They all generate **chaotic and weak, high frequency heart-waves on the graph, see below. The Brain Stem is where your own personal negative Belief System develops = your own personal Bull Shit = ignorant, faulty thinking, unenlightened thinking, & is where the concept of the Devil comes from in many religious beliefs. See pages # 30, bottom # 4, (John 3:19-21, 8:41, 8:43-44, 10:10).****

(+) **Positive Emotions ... (Spiritual, Higher Mind consciousness & functioning... ♥Heart Brain - H.B. - Right Brain, Front Brain, Top Brain). This is where you find ♥Love, appreciation & Gratitude, kindness, Light, happiness, patients, Truth, etc. They all generate very orderly, low frequency, but very powerful waves on graph below. Significance of this is far more than casual scientific curiosity as we shall come to see. page #30. H.B also = “Wind = Holy Spirit = voice of God, Jesus, Angels, Intuition” Page # 6. (((John 14:6; 3:21; 13:34-35; 8:31-32; 8:51; 6:40; ... 3 John 1:4))) ; *** Galatians 5:22-23 *** John 12: 25-26. Anyone who loves their B.S. life, will lose it, while anyone who hate their B.S. life in this world, will keep it (their H.B. Life) - for eternal life. 26 Whoever serves me, H.B, must follow me: where I am, my H.B. servants also will be. *** John 13:17, Now you know these things, you will be blessed if you do them.**

*** The Ancient Egyptians regarded the ♥Heart - “as the seat of consciousness & understanding”... See the bottom half of page # 20(a), then pages #4 -- #8 and pages # 26 (a,b). These pages help explain the relationship of light, ♥Love & thought - with ♥Heart-Brain & pineal gland.

However, the extensive research of Armour and others show that there can now be no going back – we can all now state quite dogmatically that the relationship between the **heart** and brain has been hugely underestimated, **and** that the **♥Heart** contains more brain-like capacities than anyone would have thought just a very few years ago.

1. Has thinking and calculating nerves.
- *2. Has a brain of its own.
3. Participates in leading **and** guiding individuals based on certain calculations, emotions **and** feelings.
4. Relays information back to the brain **and** has a 2-way communication system with the brain that enables it to take part of the thinking, processing, **and** decision-making.
- *5. Can force the **Head brain** to obey its commands. (((The **♥Heart**-brain can re-wire the head-brain to **♥Heart**-brain thoughts & actions.
