Jesus, The Light Of The World

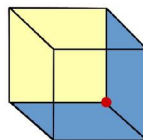

**Revelation 3:20** - “Here I am!. I stand at the door and knock. If anyone hears my voice & opens the door, I will come in and eat with him, and he with me”  
The window in the door is open so we can see & know there is a choice, the choice of “**Light & ♥ Love.**” It is not about making THE choice in blind faith

The true Church - is the reign of God in the ♥ **Hearts** of men, an extension of Christ's Kingdom on earth. Use your ♥ **Heart** to bring Heaven,  
( The Kingdom of God ), down to earth ... \*\*\* **Galatians 5:22-23** ... **9 Fruits of The Holy Spirit.**

“Don’t collect for yourselves treasures on earth, where moth and rust destroy, & where thieves break in and steal. ( **Matthew 6:19** )  
( **6:20** ) But collect for yourselves treasures in heaven, where neither moth nor rust destroys, & where thieves don’t break in & steal.

“The Lost Knowledge and Forgotten Wisdom of The Heart”

When all is said and done, when you come to the end of your life, I don't want to know what the world said or what your worldly mind has learned to define as successful, or what rules or customs you were brought up with and felt you had to follow in order to justify what you did or didn't do to others or for others. What I really want to know is, Do you know how to really not know ?? Can you realize your own ignorance while you profess and assert your worldly knowledge to others ?? I want to know if you have learned what it means to think with and through your **Heart**, to know the difference between looking with your eyes and seeing with and through your **Heart**, and to not only be able to hear with your ears but to also be able to listen with & through your **Heart**. Have you learned & experienced the difference between feeling with your hands & feeling with and through feeling with and through your **Heart** ?? Are you able to touch others **Hearts** with your **Heart** ??

I don't want to know what facts you have learned throughout your life on earth, but I do want to know if you know what it means by the saying, "The ♥Heart has no reasons, it knows without reasoning". Have you learned how to know with and through your ♥Heart ... **FIRST**, and then act accordingly ?? I want to know if you can do the "**Right Thing**", even if it means **challenging** the authority figures and rules of the day, **and then** do it again, and again ?? What I really want to know is, **are you strong enough**, and do you **have the courage** to follow **Socrates, ( 469 - 399 BC )**, **example of "... Examining your thoughts, statements and actions by pursuing their implications, on the assumption that if they are true, they would not lead to false consequences ..."** ?? I want to know that after you have struggled to climb, to ascend, to the top of the mountain, will you willingly and **Joyfully** and ♥**Lovingly** come back down to be with and to help those who have not climbed the mountain ?? If you can, then you have been able to touch the ♥Heart and ♥Love of God with your ♥Heart, with your thoughts, and with what you have said and done with your life on earth ... this time ... and then each time hereafter.

**Anonymous** ( Gerald Hernesmaa, 1997 )

**P.S.** The ♥Heart has no reasons, it knows without reasoning, because the ♥Heart understands and knows in ways that reason does not understand & can not verify, so the ♥Heart has it reasons that reason does not know ( **John** 15:15; 14:17 ), ( **Mark** 2:8; **Matthew** 12:25; **John** 2:24-25; **John** 5:44; 6:36; 8:45-7; **John** 9:1-41; **John** 10:6, 37-38; **John** 3:10-12, 32-34; 12:37-50 )

**Einstein Said**, "... The world is a dangerous place to live in, **not** because of the people who are evil, but **because** of the people who don't do anything about it ..." . . . . <http://en.thinkexist.com/> .

**“Ethics” ... n. pl., 1.)** The Principles of **morality**, including both the science of the **good** and the science of **right**.

Health Benefits of listening to the Heart Brain talk to the left brain, brain stem, lower mind. ( . <http://www.heartmath.org/> . )

Scroll down to the diagram of ... Heart centered magnetic energy field lines radiating out from the Heart center of the body.

**The heart is the most powerful generator of electromagnetic energy in human body**, producing largest rhythmic electromagnetic field of any of the body's organs. Heart's electrical field is **about 60 times greater in amplitude than the electrical activity generated by the brain**. This field, measured in the form of an electrocardiogram (ECG), can be detected anywhere on surface of the body. Furthermore, the magnetic field produced by the heart is **more than 5,000 times greater in strength than the field generated by the brain**, and can be detected a number of feet away from the body, in all directions, using SQUID-based magnetometers (Figure 12). Prompted by our findings the cardiac field is modulated by - different emotional states (described in the previous section). We performed several studies to investigate the possibility that **the electromagnetic field generated by the heart may transmit information that can be received by others**.

Lots of mapping of brain frequencies have taken place, but the Heart, he points out, is much more powerfully electrical than the brain. Heart activity must be **screened out** when doing an EEG on brain. **What he found is as significant as it is amazing**. ( When going to war, and chemically poisoning our food and environment, or lack of forgiveness, feelings of hate, etc., etc., etc., you must also **screen out ♥Love** ).

( - ) **Negative Emotions** ... ( Physical, “Lower Mind” consciousness ... **Brain Stem - B.S. – Left Brain** ). **Brain Stem – is most primitive part of brain, and is the 1<sup>st</sup> to develop**. It deals with survival instincts of, fight or flight, greed, frustration, anger, hatred, Wars, unhappiness, jealousy, fears, negativity of all kinds. They all generate **chaotic and weak, high frequency heart-waves** on the graph, see below. The **Brain Stem** is where your own personal negative **Belief System** develops = your own personal **Bull Shit** = ignorant, faulty thinking, unenlightened thinking, & is where the concept of the Devil comes from in many religious beliefs. See pages # 30, bottom # 4, ( John 3:19-21, 8:41, 8:43-44, 10:10 ).

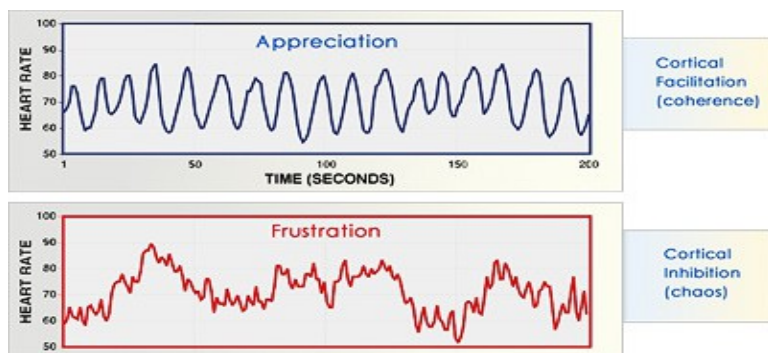

( + ) **Positive Emotions** ... ( Spiritual, Higher Mind consciousness & functioning... ♥Heart Brain - H.B. - Right Brain, Front Brain, Top Brain ). This is where you find ♥Love, appreciation & Gratitude, kindness, Light, happiness, patients, Truth, etc. They all generate very **orderly, low frequency, but very powerful waves** on graph below. Significance of this is **far more than casual scientific curiosity** as we shall come to see. Page # 30. H.B also = “Wind = Holy Spirit = voice of God, Jesus, Angels, Intuition” Pages #6, 13, 20. Life) - for eternal life. 26 Whoever serves me, H.B, must follow me: where I am, my H.B. servants also will be. \*\*\* John 13:17, Now you know these things, you will be blessed if you do them.

However, the extensive research of Armour and others show that there can now be no going back – we can all now state quite dogmatically that the relationship between the **heart** and brain has been hugely underestimated, and that the ♥ Heart contains more brain-like capacities than anyone would have thought just a very few years ago.

Scientists, clearly prove that the ♥ Heart:

1. Has thinking and calculating nerves.
- \*2. Has a brain of its own.
3. Participates in leading and guiding individuals based on certain calculations, emotions and feelings.
4. Relays information back to the brain and has a 2-way communication system with the brain that enables it to take part of the thinking, processing, and decision-making.
- \*5. Can force the Head brain to obey its commands. ((( The ♥ Heart-brain can re-wire the head-brain to ♥ Heart-brain thoughts & actions. Besides looking at heart rate variability patterns, doctors also analyze electrocardiograms (ECG) to determine the health of the physical heart. For some years, scientists have been able to see the effects of hostility and severe depression in the ECG. **Only recently**, through the use of ECG spectral analysis, have they been able to see the effects of even more subtle **"negative" emotions**, such as frustration, worry and anxiety, as well as the effects of **"positive" emotions** such as love, care, compassion and appreciation.

Heart rate variability is an excellent measure of nervous system balance, and research is showing that your perceptions and reactions affect your heart rhythms. Therefore, heart rate variability is an important indication of how well you are balancing your life.

## **How Your Heart Affects Others**

The electrical waves of the heart act like radio waves and are transmitted outside the human body as well as to every cell of your body. This may explain why you can sometimes walk into a room and tell if two people just had an argument, even though they are quietly standing there. You can "feel it in the air." **The electrical frequencies radiated by the heart change dramatically when you are in different emotional states and can affect not only yourself but the people around you.** In fact, the researchers at IHM have shown that **the field radiated by your heart is literally picked up by the brains of people nearby!** When two people are touching or even standing near each other, it is now possible to measure the heartbeat of one person being registered in the other person's brainwaves. (Fig. F) By **learning to create internal entrainment and coherence** through the Freeze-Frame process (taught in all HeartMath fundamental programs), you radiate a much more harmonious signal to your environment and the people around you.

Most of us have been taught in school that the ♥Heart is constantly responding to "orders" sent by the brain in the form of neural signals. However, it is not as commonly known that the ♥Heart-brain **actually sends more signals to the brain - than brain sends to the ♥Heart** !! Moreover, these ♥Heart-brain signals have a significant effect on brain function, influencing emotional processing ... **as well as ...** higher cognitive faculties, such as ... attention ... perception ... memory ... and problem-solving. In other words, not only does the Heart respond to the brain, but the brain continuously responds to the Heart.

## The Heart Brain Communication System

. <http://thetaobums.com/topic/12629-second-brain/> .

**The intrinsic cardiac nervous system, or heart brain**, is made up of complex ganglia, containing afferent (receiving) local circuit (interneurons) and efferent (transmitting) sympathetic and parasympathetic neurons. Multifunctional sensory neurites, which are distributed throughout the heart, are sensitive to many types of sensory input originating from within the heart itself. The intrinsic cardiac ganglia integrate messages from the brain and other processing centers throughout the body with information received from the cardiac sensory neurites. **Once information has been processed by the heart's intrinsic neurons**, the appropriate signals are sent to the sinoatrial and atrioventricular nodes as well as the muscles in the heart. Thus, under normal physiological conditions, **the heart's intrinsic nervous system plays an important role in much of the routine control of cardiac function, independent of the central nervous system**. Dr. Armour and his colleagues have shown that the heart's intrinsic nervous system is vital for the maintenance of cardiovascular stability and efficiency, and that without it, the heart cannot operate properly.

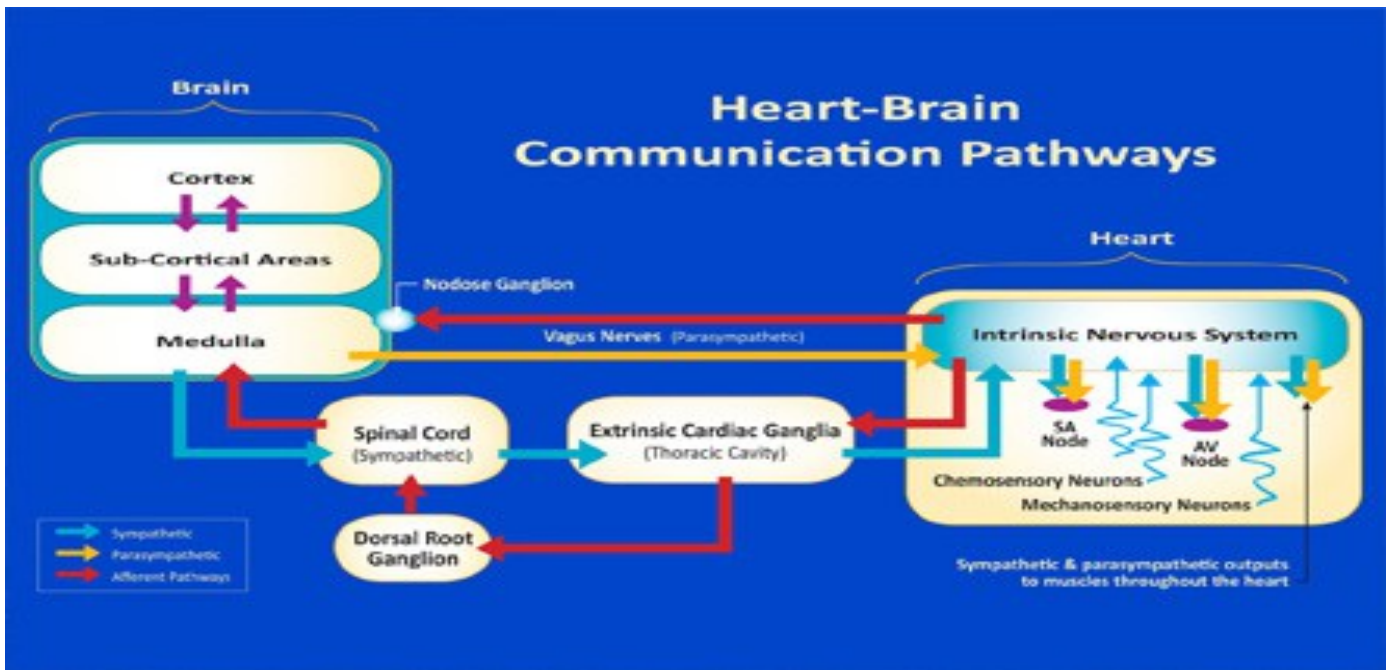

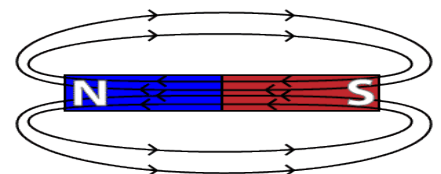

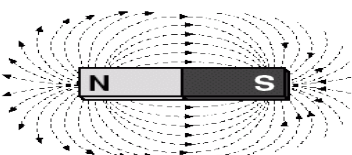

Figure 2. ... <http://dingo.care2.com/pictures/greenliving/uploads/2013/01/2-Care2-HeartTalk-to-Brain-443x267-web2.jpg> .

**Figure 2 ...** The neural communication pathways between the heart and the brain. The heart's intrinsic nervous system consists of ganglia, which contain local circuit neurons of several types, and sensory neurites, which are distributed throughout the heart. The intrinsic ganglia process and integrate inflowing information from the extrinsic nervous system and from the sensory neurites within the heart. The extrinsic cardiac ganglia, located in the thoracic cavity, have direct connections to organs such as the lungs and esophagus and are also indirectly connected via the spinal cord to many other organs, including the skin and arteries. The "afferent" (flowing to the brain) parasympathetic information **travels from the heart to the brain through the “vagus nerve” to the medulla, after passing through the nodose ganglion**. The sympathetic afferent nerves first connect to the extrinsic cardiac ganglia (also a processing center), then to the dorsal root ganglion and the spinal cord. Once afferent signals reach the medulla, they travel to the subcortical areas (thalamus, amygdala, etc.) and then to the cortical areas.

Galaxies are large system of stars, (Suns), gas & dust, held together by mutual gravitation & isolated from similar systems by vast regions of space. Small galaxies may contain only a few 100 thousand stars (Suns), while the largest galaxies have thousands of billions of stars.

**The largest know galaxy is NGC 6872, and it is so large, it can hold 5 of our Milky way Galaxies, with room to spare.** Then there are Galaxy Clusters and Galaxy Super-clusters. The Galactic Bulge in Galaxies is a collection of billions of stars giving off light. It is surrounded with billions & billions of more Suns, each with their own solar systems. The closest galaxy is 2.5 million light years away. The light from stars continues on forever, even after the star burns out & no longer exists.

## **“Everything You Think You Know About Black Holes - Is Wrong”**

Light escapes from black-holes, light never ends, ♥ Love never dies, they go on forever, for eternity.

Yet this basic picture of black-hole appears to contradict the laws of **quantum mechanics**, which govern the universe's tiniest elements.

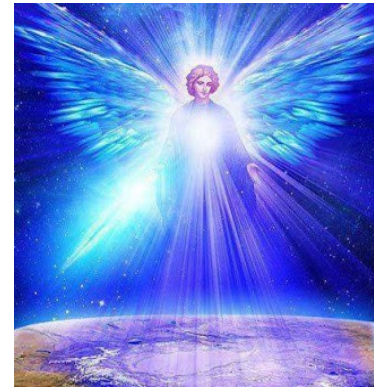

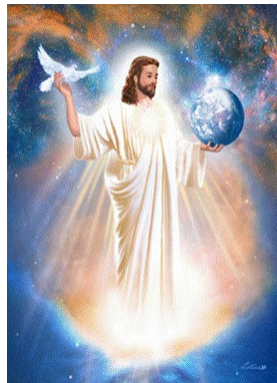

What you get from classical general relativity, & also what everyone understands about a black hole, is that it can absorb anything coming near, but it can't emit anything. **But quantum mechanics doesn't allow such an object to exist,** Edward Witten said.

In quantum mechanics, if a reaction is possible, the opposite reaction is also possible, explained Mr. Witten, theoretical physicist. Processes should be reversible. Thus, if a person can be swallowed by a black hole to create a slightly heavier black hole, a heavy black hole should be able to spit out a person and become a slightly lighter black hole. Yet nothing is supposed to escape from black holes.

Thus, **quantum mechanics** refuted one of the basic tenets of black holes -- that nothing can escape a black hole. Now imagine the door in the wall opens. **What always, always, always, happens ??**. Light from the box on the right **always** goes into the darkness. Darkness doesn't go into the light because 1.) In 1959, I was 11 years old. My science teach told us the electron is a particle that travels around the nucleus of the atom. Latter, we were told the electron is a wave, and now we know the electron is both a particle & a wave - ( Duality ). These 3 views exist all at the same time, and don't contradict each other. Each view helps explain the other. This duality extends to God & all of his creation. Long before I was 11, I was also told in Sunday School **“... God made everything, so He is the greatest scientist, & God is in everything & is everywhere, all at the same time ...”**. This means God made Light **Genesis 1:3**, and God is Light, & God is greater than the Light he made, just like fish swimming in water. God is ♥ Love and ♥ Love is God ... ♥ Love is light and light is ♥ Love. This Light and ♥ Love radiating from our ♥ Hearts is what we call the **Holy Spirit**. Jesus is the Light of the World. This means God and his ♥ Love are the greatest forces in the Universe. ... 14

All energy, magnetic field models, no matter what they are ... Atom - nucleus/electron ... Heart center/ human body ... magnetic fields of earth & planets ... Sun/ Stars ... centre Sun of Solar Systems & Galaxies ... all show the strongest energy force is in the centre of the force field. “Fractals.” Since matter is frozen light, & every atom of matter has a centre energy force of light, & God made everything, including Light, with ♥ Love, then Light is ♥ Love and is the Light of God, so the **Holly Spirit** is in everything, everywhere, all at the same time.

**The Egyptian Pharaoh Akhenaten ( 1352 BC ), about 3,365 years ago,** would have been aware of this information with his education in the secret mystery schools of his day. **Why secret ??**. Read the last 4 sentences in this paragraph, and last paragraph on next page. He was Pharaoh for about 17 years with his Queen Nefertiti. During those years, he abandoned the traditional religion of worshipping many Gods, to being **one of the 1<sup>st</sup> people in history** to proclaim **only “One God” - Aten - The Sun**. He gave Aten status above false gods of the old religion – because he understood the symbolic relationship of the ♥ Heart of man to the Sun, and to God. The Priesthood was upset with His **NEW religion of “Only One God”** because it took away the authority of the priesthood over the common people & also gave women equal rights & equal status to men. God, the Sun Aten, and the ♥ Heart of man, all give life. Most people at that time, & still even today, don't understand the importance of this symbolism. It is still mistakenly thought Akhenaten was just worshipping only the Sun. As you can now see, he was really worshipping God, **“The One God,”** not the many false gods of their old religion. **Central theme of this “New One God religion** was **Spiritual ♥ Love**” - to listen to & follow your ♥ Heart - God - first. ( Follow the straight & narrow path - follow Yellow Brick Road, there's no place like home. Colour “yellow” is used by artists when painting Sun in a picture.) --- **(( Akhenaten** tried to bring about a departure from the old **traditional religion** of many God's, yet in the end, his knowledge & understanding would not be accepted. After his death -- the Priests of the old traditional religion gradually restored their old God's & old religion. Then some dozen years later, Rulers without clear rights of succession from 8th Dynasty, founded a new dynasty - **discredited Akhenaten and** his immediate successors - then referred to Akhenaten as **“the enemy”** in archival records. The Priesthood had his name removed from all monuments, in the hopes that he and his strange ideas would be totally forgotten, & his city was abandoned. ))) ... <http://en.wikipedia.org/wiki/Akhenaten> . ... 18

### **“Ancient Egyptian Wisdom”**

**But Akhenaten's teaching were secretly handed down, generation to generation, & still live on to this very day.** The Truth never dies. The Symbolism of the Egyptian Cross, the Ankh, has a dual meaning – it is both the Symbol of Life and of Spiritual Enlightenment. There were times in the past when the Ankh was given weird, distorted & perverted meanings. But, the Truth still marches on. ( Symbols are a short, quick, & fast way to add or represent meaning that goes beyond what is literally being said, written or shown. ). Notice the top of Egyptian Cross is not a circle or a straight line, but a loop, an oval, an ellipse. The orbits of the planets around the Sun are also ellipses, and the same with the orbits of the electrons around the nucleus of the atom. The cross represents the human body. This ellipse, starting at the center of the cross, is symbolic of the ♥Heart Energy. The loop/ellipse also represents the ♥Heart Energy moving up to & surrounding the head, and ( the left-brain and brain-stem ). In today's language, it would be said that the head is surrounded by the ♥Love of God and The Holy Spirit, as shown in the image here on [page #6, Theologue – 1984 ...](#) “Quiet - the Head is listening to the ♥Heart-Brain.” The Egyptian Cross - symbolically represents that meaning & image. The ♥Heart Energy, now dominates the head & returns to the ♥Heart center - the center of the cross, completing its purpose & journey. The Brain-stem/ Left brain, is now the Servant of ♥Heart-Brain. The person is now what is referred to as baptized, born again, Spiritually enlightened, & has the power of Holy Spirit to create Heaven on Earth with Loving, Heavenly thoughts, Gods thoughts, good deeds ( 1<sup>st</sup> do no harm ), as Jesus ( the Master of ♥Love ), wants us do. See [page #2 - Socrates \( 469 - 399 BC \)](#) “... Examining your thoughts, statements & actions by pursuing their implications, on the assumption that if they are true, they would not lead to false consequences ...” Also see Mr. Emoto's frozen Snowflake crystal pictures - [p #1, #4, #5 #30 “Thoughts Frozen in Time.”](#) Now, brain-stem, left-brain has a new job ( that is - its original job is restored to God's purpose ) ... We are no longer a house divided ( [Mathew 12:22-28](#) ) - but are One Brain ( [Luke 11:34](#) ) **thine eye be single.** Our desire is now centred on thinking with our ♥Heart Brain – so that our ♥Heart resonates with ♥Heart of God, ( Making the wine glass sing ), the song of Gods ♥Love, (+)positive ♥Loving thoughts, Heavenly thoughts to guide our life ... “Using your ♥Heart to bring Heaven down to Earth.” [Matthew 6:10.](#)

The Ankh is symbolic of the 2<sup>nd</sup> Coming of Christ, baptism, being Born Again in the spirit, by the spirit, becoming the Sun, the Son of God.

( [John 3:1-7](#) ) : “There was a man of the Pharisees, named Nicodemus, a ruler of the Jews: The same came to Jesus by night, and said unto him, Rabbi, we know that thou art a teacher come from God: for no man can do these miracles that thou doest, except God be with him. Jesus answered and said unto him, Verily, verily, I say unto thee, **Except a man be born again, he cannot see the kingdom of God.** Nicodemus saith unto him, How can a man be born when he is old ?? can he enter the second time into his mother's womb, and be born ?? . Jesus answered, Verily, verily, I say unto thee, Except a man **be born of water and of the Spirit**, he cannot enter into the kingdom of God. That which is born of the flesh is flesh; and **that which is born of the Spirit is spirit.** Marvel not that I said unto thee, **Ye must be born again**” ( [John 3:1-7](#) ) . ( Thus, a personal relationship with God ... [http://www.jesus-is-savior.com/Basics/ye\\_must\\_be\\_born\\_again.htm](http://www.jesus-is-savior.com/Basics/ye_must_be_born_again.htm) .

This relationship empowers the individual to not need a middle man to worship God, for spiritual growth and enlightenment. The Egyptian cross with its loop/ellipse, was used as a symbol by people who believed, knew, this understanding that **“there is only One God,”** when there was a need to safely & secretly communicate with one another during times of persecution by the establishment, ( government, or dominate religion of the day ). Many times in History, **torture** and/or **death** was the penalty for going against beliefs, customs, religions, governments. For example, the Roman Catholic Church during -- The Holy Medieval Inquisition, ( 1227-1400 AD ), lasting 169 years, **and** Spanish Inquisition, ( 1478-1834 AD ), lasting 356 years. Also, **don't forget** what Catholic Church did to **Galileo** in 1633 when **Galileo** supported **Copernicus theory** that - **“the Earth & other planets revolve around Sun, meaning the earth was not the centre of the universe as the Church insisted.”** For telling that truth, the new knowledge to others, in 1633, **Galileo** was sentenced to life imprisonment - house arrest & was forbidden to talk about that new knowledge to others. **Two other very recent examples**, reported on 6pm TV News in **2012 and 2013 ... 1.)** It is a crime - punishable by **death** - for a Muslim to change his/ her religion to the Christian Religion. **“Islam proscribes the death penalty for Muslims who wish to embrace another religion” ... 2.)** A 16-year-old Pakistani girl, Malala, was shot in head by the Taliban – member of Islam Religion there - because she attended school & supported woman's right to education there. She survived, & was nominated for top Human Rights Prize **Oct. 10, 2013**. She said, “They only shot a body, but they cannot shoot my dreams” ... Now, can you just imagine how much more **dangerous it was for Jesus** to speak about ♥Love, Truth, Wisdom, Compassion, kindness, forgiveness, etc., over 2 thousand of years ago !!! ... 18(a)

### **Beyond - “Ancient Egyptian Wisdom”** **The Truth Never Dies**

Please refer to **pages #1 - #8, #13, and #17 - #19, and # 21 - #26**. It is time to clear up some confusion, misunderstanding, silliness about 2 very important topics that has gone on for thousands of years. (Includes destruction of Great Library of Alexandra – fire set by Julius Caesar 48 BC). This is because of the intentional spread of misinformation. **The 1<sup>st</sup> silliness** - misinformation about the original intended meaning of Egyptian Cross, Ankh. The misinformation was and still is intentionally used to create confusion and ignorance as a type of mind-control, propaganda machine, promoted by those in power, in some religions & in governments, past and present, to manipulate & control peoples thoughts & behaviors with an iron fist rule, for selfish & economic reasons, as it was proven to be good for business. ( Same is true today - examples - industry & government denying dangers of pesticides, GMOs cell phones, smart meters, loud noise, and many proven no side-effect cancer therapies that do work, etc.). People in control of this type of manipulation - don't want others to have the freedom of spiritual knowledge and worship - knowing the truth brings. The wonderful and beautiful thing about Jesus teachings of ♥ Love is that Jesus breaks this iron fist control over our thinking and our lives, which then gives us back our **Freedom** & path back to God and The Kingdom of Heaven.

### **“You Can Not Always Depend On - Seeing What You Are Looking At”**

Compare & notice the similarity of the pictures of Jesus above to the images of both Egyptian Cross, Ankh, and the Religious Cross. Each Cross represents the human body ... The center of each Cross represents the ♥ Heart, the Holy Spirit, ♥ Love of God - pointing the way back to the Kingdom of Heaven. Symbolism of the Egyptian Cross, Ankh, has a dual meaning – it is both the Symbol of Life, ( the Sun which gives life ), and of Spiritual Enlightenment. There were times in the past when the Ankh was given weird, distorted & perverted meanings. But, the Truth still marches on. ( Symbols are a short, quick, & fast way to add or represent meaning that goes beyond what is literally being said, written or shown. ). Notice the top of Egyptian Cross is not a circle or a straight line, but a loop, an oval, an ellipse, which is the same as the orbits of the planets around the Sun and the electrons around the nucleus of the atom.

The spiral at the center of the 2 crosses above is symbolic of ♥ Heart Energy - The Holy Spirit - starting at the ♥ Heart - the center of the cross - moving upward, following the path of the ellipse around the head - shown above as “The Circle of Light - The Holy Spirit” surrounding the head of Jesus, or any spiritually enlightened person, 3 Wise Men. With the “Light of the Holy Spirit” surrounding the head, it takes control of the “Brain-stem // Left-brain” - which now becomes the servant of the ♥ Heart. In today's language, it would be said the head is surrounded by the ♥ Love of God - The Holy Spirit, as shown in the images here & on **page # 6, Theologue – 1984 ...** “Quiet - the Head is listening to the ♥ Heart-Brain” ... **John 18:37** - “Jesus Said, Everyone on the side of Truth - listens to me.” The person is now filled with the Holy Spirit. The Egyptian Cross - symbolically and fully represents that meaning & image, as this is & was the true, original, esoteric, secret meaning of the Ankh from the very beginning. With ♥ Love of God - The Holy Spirit - ♥ Heart Energy now fully in control of the head, ( the Brain-stem / left-brain ), the spiral energy of The Holy Spirit, now returns to the ♥ Heart center – center of the cross, completing its purpose & journey. The transformation from caterpillar to butterfly is now complete. The old life has died. The person is “**Born Again,**” **Baptized** into a new Spiritual life, ( gaining his Freedom from being control by the material world ), to follow the teachings of Jesus. ... 18 ( b )

## **The Fate of the Great Library of Alexandria**

. <http://gatesofvienna.blogspot.ca/2010/04/fate-of-library-of-alexandria.html> .

**The great Library of Alexandria**, established by Ptolemy II (circa 280 BC), has come to symbolize, in the mind of modern man, the learning of Classical Civilization, a learning cruelly snuffed out in the Middle Ages. At its height, the Library contained an estimated 40,000 volumes on wide variety of topics. As well as works on astronomy, mathematics, physics, medicine, and philosophy — many of which were copied from the hieroglyphic and cuneiform texts of the Egyptians and Babylonians — there were histories of all the countries of the known world: histories of Egypt, of Babylonia, of Persia, of the lands of North Africa, of the lands of Western Europe, etc. Although it was the greatest bibliographic collection in the ancient world, the Library probably held few books that were unique to it: Almost all were copies of others held in other libraries or institutes of learning. Nonetheless, the Alexandria Library was celebrated as the most important repository of knowledge in the world at the time, and its disappearance is rightly seen as a catastrophe and symbolic of the loss of respect for knowledge which followed the collapse of Classical Civilization. ( the wonders of which we can only dream of what it may have contained. Example, medical knowledge that we take for granite to day, such as, there is evidence that successful brain surgery was performed thousands of years ago, and the patient lived – because the sight of the operation healed over. ).

Of the volumes held by the Library, as well as the other libraries of the time, it has been estimated that something like 95% are lost. What remains of the writings of antiquity is but a tiny relic of what once existed.

A story, apparently first appearing in the thirteenth century (mentioned first by Abd al Latif, who died in 1231, and later by Gregory Bar Hebraeus, who died in 1286), said that the Arabs, under Caliph Umar, destroyed the Alexandria Library shortly after the conquest of Egypt in 639 AD. The story was told that the Caliph, when informed about the institution, **declared that if the books it contained agreed with the Koran, they were superfluous; and if they disagreed, they were heretical. In either event, they were worthless and should be destroyed.** The books of the Library were put to the torch — used to heat the palace baths.

Leaving aside the assertions of the Wikipedia authors, there is irrefutable proof that the wider dissolution of Classical Culture occurred in the 7th century; and that this was a direct consequence of the Arab conquests. Thus the Arabs, as I show in Holy Warriors, destroyed Classical Civilization in Europe through an economic blockade -- but in the Middle East -- they destroyed it deliberately and methodically ... \* Furthermore, **there is more clear evidence that this dissolution and destruction was the result of a deliberate act of policy** on the part of the Arabs.

Now just think of what it was like during the time of Jesus, over 2,000 years ago, when they tried and finally succeeded in killing Jesus, just because his teaching of ♥ Love went against the political and religious party lines of that time.

I wonder if this information, here in this essay, may be one reason why Rome burned down **The Great Library of Alexandria**, containing 40,000 priceless scrolls and manuscripts, around 48 BC ... <http://www.bede.org.uk/library.htm> . Such knowledge as in this essay would have been a threat to the political and military authority of Rome and Cesar at the time, & in the same way, still is today in many countries. Example, also, there is evidence that successful brain surgery was performed thousands of years ago, and the patient lived – because the sight of the operation healed over. The loss of this great Library was and still is a great loss to humanity.

In the 1959 the movie **Ben Hur**, ( see page #12 ), as Jesus gives water to Ben Hur, a Roman Soldier approaches saying **“no water for him, no water for him,”** meaning Ben Hur. ( Roman Soldiers were the most feared, cruel, brutal, and heartless military soldiers of their time.). **Jesus** just slowly stood-up, **says nothing**, turns, faces the approaching very, very angry Roman Soldier. **Jesus** does not even lift a finger in defence of giving Ben Hur water. **Jesus** just silently looks at the approaching soldier. The movie camera also moves to the side and behind Jesus. Here - you see for a few seconds - the Roman Soldier stop, pause, look confused, and back off, while at the same time, you can also feel Jesus ♥Heart energy of **God's ♥ Love**, that Spiritual Force of the Holy Spirit, ( **“The Wind,” John 3:8 ...** see the middle page # 6 ) -- stopping the Roman soldier from coming any closer ... This scene is referred to as “one of the most amazing & powerful scenes in all of cinema history that has ever been put on film. It's a classic for all-time.” Referring to the miracles Jesus did with this spiritual energy from God. ( **John 14: 12 ... “whoever believes in Me, the works that I do, he will do also, and greater works than these he will do ...”** ).

The ♥Heart ( “Sun of God, The Son of God” ) projects, radiates Spiritual energy - **God's ♥ Love**, & your physical electrical energy, into physical world.

Your ♥Heart & your ingenuity gives you the advantage over - **Brain-stem // Left-brain people** - for they can only - rely on - illusions of the physical world  
Pray not for things - but for Wisdom and Courage.

## **The weighing of the soul of Ani in the “Hall of Double Ma'at”**

Ma'at in the Egyptian Language means Truth. The Papyri scroll below is about 76 feet long, with many & various other images. Scale below shows persons ♥ **Heart** - conscious ( left ) being balanced, judged, weighed, measured against Feather ( right ) - Ma'at herself. The Feather of Ma'at represents Divine Truth, Justice & Order, Balance, Harmony.

**The judgement was done by** - weighing one's heart ( conscience ) against the Feather of Ma'at ( Divine Truth, Justice, Order ). If the ♥ **heart** was as light as a feather, and nearly weightless, that indicated that the deceased soul was not burdened with sin & evil and could pass on to Heaven, the after life.

### **Ma'at, Symbol of Order Ma'at, Goddess of Truth, Balance, Order ...**

Ma'at, unlike Hathor and Nephthys, seemed to be more of a concept than an actual goddess. Her name, literally, meant 'truth' in Egyptian. She was truth, order, balance and justice personified. She was harmony, she was what was right, she was what things should be. It was thought that if Ma'at didn't exist, the universe would become chaos, once again !. ... <http://www.touregypt.net/godsofegypt/maat2.htm> ... ## **The Book of The Dead – Famous Egyptian Papyri**

from pages in this **1979** book. 28, 29 and 82, 83

( printed in Spain )

The weighing of the **Soul of Ani**, in the **Hall of Double Ma'at**, Ani's address to his soul and the sentence of acquittal, in which he is found to be maa-cheru (“triumphant” or “**true of voice**” has been used to render this term). In the lower vignette, **Ani** and his wife enter the Hall of Double Maat where **Ani's heart**—the organ regarded by Egyptians as the “**seat of consciousness & understanding**” --- is weighed against the **feather** of maat, symbolic of order, regularity, **Truth** and **justice**.

**Anubis**, the custodian of the dead, checks the balance to make sure that it is working properly; on the right, **Thoth**, the scribe of the gods, records the verdict on his scribe's palette. Behind him stands the **monster Ammir**, “Devourer of the dead”, whose body consists of the head of a crocodile, the trunk of a lion and the hind quarters of a hippotamus. **Thoth** is shown again as the baboon at the top of the scales.

Like the Papyrus of Hunefer, which was produced some 50 years latter, the Papyrus of **Ani** has a second vignette included in this judgement scene: in the upper register are 12 of the major gods who sit in judgement, before a table of offerings; each of them holds the sacred was scepter.

**Note ... “true of voice”** ( see above ) - today would be seen, understood, as meaning the equivalent to “**The Wind**” in the Bible, John 3:8 ... “**The Wind**” blows where it wills, and you hear the voice thereof, but know not whence it comes, and where it goes; so is every one who is born of the Spirit.”

### **The following interventions will deal with the Egyptian Goddess Ma'at and her 42 Principles of Virtue**

**Maat's 42 ethic principles** were written at least 2,000 years before the 10 Biblical Commandments of Moses. **Eight** of 10 are thought to originate from ideas of Ma'at, **& are shown in bold**. The 42 Ideals of Ma'at are so simple, and so beautiful – they cover every basic tenant of higher awareness & consciousness – they are as relevant today as if they came straight from a modern day spiritual teacher. **The 42 Maat's Principles of Virtue** were first found in the Ptahotep Imprecations, dated around ~2760, but the version usually bring forth comes from the 'Book of Dead' ( rather 'Coming Forth By Day', or even The Book of Resurrection ), and its world famous Papyrus of Ani, dated ~1240. **Many think that the 10 commandments originated out of them.** We shall see that abiding to those would make our societies evolve drastically from an ethic perspective.

“I'll present the old Wikipedia set up, from my files, which were changed most probably from vested interests. The opening lines of Wiki are: **Ma'at**, (...), was **the Ancient Egyptian concept of law, morality, and justice which was deified as a goddess. Ma'at was seen as being charged with regulating the stars, seasons, and the actions of both mortals and gods ...** ). Maat was much more than just a goddess, she symbolized the whole Ethic of Ancient Egypt. **Her husband, Toth, was the perfect match since he was reputed to be the god of wisdom and knowledge**, later known as Hermes Trismegistus (the thrice great). We'll have a look at him too.”

### **Just ask yourself this one question about your future & about the rest of your life**

When you look back on your life many years from now, as you lay dying in your bed, do you think you would wish you were brave enough & had the courage to have done things differently ?? Do you think you would wish you had the courage to listen to and then bravely follow **“the voice of your ♥ Heart”** - ( **the 'Wind** ), page # 6, so you would have said & done **“The Right Things”** at right time, even if it meant questioning & challenging the authority figures, governments, religions, rules & customs of the past, **and then** have done it again, and again, and again ??

If you could turn the clock back while you lay dying in your bed, what do you think you would be willing to trade – for all the days – from this day to that ... for one more chance, yes, just one more chance ... to be able to come back here in time, right here, right now, so you could bravely say and do **“The Right Things”** in the ways that **Jesus and Socrates and Akhenaten** would have wanted you to ??

- 1.) **Akhenaten - Egyptian Pharaoh ( 1352 BC ), about 3,365 years ago**, allowing free search for God, Truth & meaning of life. Allowing free thought, free speech, and free expression and worship of God and his Love. Giving women equal rights and equal status to men.
- 2.) **Following Socrates ( 469 - 399 BC ) example of “...** Examining your thoughts, statements, and actions by pursuing their implications, on the assumption that if they are true, they would not lead to false consequences ... .. His view is often described as holding virtue & knowledge to be identical so, no man knowingly does wrong ... .. His contributions to philosophy were a new method of approaching knowledge; a conception of the soul as the seat of both normal waking consciousness and of moral character; a sense of the universe as positively mind-ordered ...” quotes from The Columbia Encyclopedia, © 1967, 3rd Edition; page 1987 ... .. More see page # 26 ( i ).
- 3.) **Jesus example while he was here on earth of following Gods Highest Divine Laws of ♥Love, Forgiveness, Compassion.**  
**John 13:34 ...** “A new command I give you: ♥Love one another, As I have ♥Loved you, so you must ♥Love one another.”  
**Matthew 5:44 ...** “♥Love your enemies, bless them that curse you, do good to them that hate you, and pray for them which spitefully use you, and persecute you” ... and Mathew 22: 35-40 ... the 2 commandments that contain the whole law of God.

From The September **2001** Issue of Nutrition Science News

## **Why Organic Food Is More Nutritious**

For years, organic food proponents have suspected that organic food is higher in minerals and vitamins than conventionally farmed produce. As part of her doctoral dissertation, Virginia Worthington, Ph.D., of Johns Hopkins University, Baltimore, reviewed available research comparing the nutritional value of organically grown and conventionally grown produce. She concluded that organic produce is nutritionally Superior.

Worthington collated measurements comparing the composition of vegetables grown simultaneously under different farming conditions. She conducted 41 studies with 1,240 comparisons of 35 vitamins and minerals.

**Organically grown produce was higher in most minerals and vitamins and lower in potentially harmful nitrates, which result from nitrogen fertilizers.** The greatest differences among all vegetables tested were in **organic food ... magnesium** (organic was 29 % higher) **... vitamin C** (27 % higher) **... iron** (21 % higher).

In fact, **organic food had higher amounts of all minerals tested**, although the difference was not always statistically significant because of small sample numbers. **Organic crops had 15 % fewer nitrates than conventionally grown foods and appeared to also have lesser amounts of toxic heavy metals.**

Worthington also investigated the effect of routine consumption of organically grown fruits and vegetables on the nutritional adequacy of the overall diet. Using the USDA recommendation of 5 servings of fruits and vegetables a day, she determined that consuming organically grown produce might make the difference between a deficient & an adequate diet. **She calculated that those who consume organic produce would take in an average of 89 mg vitamin C daily** compared with **70 mg** for conventional eaters, **3.7 mg iron** compared with **3.0 mg**, and **80 mg magnesium** compared with **68.6 mg**.

**Nutritional composition of conventionally grown American food has declined during the past 60 years.** Iron is lower by 32 % ... calcium by 29 % ... magnesium by 21 % ... and potassium by 6 %. Organic farming may help reverse this trend. ... 26

Since we are like pigments in our absorption of the Light of consciousness, the mixing of pigments can help us see that, our aura can be created in either of 3 ways

- A.) reflecting off the Light and not taking it in, or
- B.) by our taking in of Light and re-radiating it in the aura, or
- C.) by our taking in of Light and not re-radiating it, in which case, the aura shows what is left in white light after certain colours have been subtracted from it. This is why the person who absorbs all 7 colours, and re-radiated none, has a **black aura** ... whereas, a person who re-radiates all 7 colors has a **white aura**.

In (B.), the human chakra system is analogous to a filter.

Before closing this little treatise it will perhaps be of interest to our readers to give a few examples of another type of forms unknown to those **who are confined to the physical senses** as their means of obtaining information. Many people are aware that sound is always associated with colour—that when, for **example, a musical note is sounded, a flash of colour corresponding to it may be seen by those whose finer senses are already to some extent developed**. It seems not to be so generally known that sound produces form as well as colour, and that every piece of music leaves behind it an impression of this nature, which persists for some considerable time, and is clearly visible and intelligible **to those who have eyes to see - ( Clairvoyance )**. Such a shape is perhaps not technically a thought-form—unless indeed we take it, as we well may, as the result of the thought of the composer expressed by means of the skill of the musician through his instrument.

Some such forms are very striking and impressive, and naturally their variety is infinite. Each class of music has its own type of form, and the style of the composer shows as clearly in the form which his music builds as a man's character shows in his handwriting. Other possibilities of variation are introduced by the kind of instrument upon which the music is performed, and also by the merits of the player. The same piece of music if accurately played will always build the same form, but that form will be enormously larger when it is played upon a church organ or by a military band than when it is performed upon a piano, and not only the size but also the texture of the resultant form will be very different. **Continued ...**

**There will also be a similar difference in texture between the result of a piece of music played upon a violin & the same piece executed upon the flute.** Again, the excellence of the performance has its effect, and there is a wonderful difference between the radiant beauty of the form produced by the work of a true artist, perfect alike in expression and execution, and the comparatively dull and undistinguished-looking one which represents the effort of the wooden & mechanical player. Anything like inaccuracy in rendering naturally leaves a corresponding defect in the form, so the exact character of the performance shows itself just as clearly to the clairvoyant spectator as it does to the auditor.

It is obvious that, if time and capacity permitted, hundreds of volumes might be filled with drawings of the forms built by different pieces of music under different conditions, so that the most that can be done within any reasonable compass is to give a few examples of the leading types. It has been decided for the purposes of this book to limit these to three, to take types of music presenting readily recognizable contrasts, and for the sake of simplicity in comparison to present them all as they appeared when played upon the same instrument—a very fine church organ. In each of our Plates the church shows as well as the thought-form which towers far into the air above it; and it should be remembered that though the drawings are on very different scales the church is the same in all three cases, and consequently the relative size of the sound-form can easily be calculated. The actual height of the tower of the church is just under a hundred feet, so it will be seen that the sound-form produced by a powerful organ is enormous in size.

Such forms remain as coherent erections for some considerable time—an hour or 2 at least; and during all that time they are radiating forth their characteristic vibrations in every direction, just as our thought-forms do; and if the music be good, the effect of those vibrations cannot but be uplifting to every man upon whose vehicles they play. Thus the community owes a very real debt of gratitude to the musician who pours forth such helpful influences, for he may affect for good hundreds whom he never saw and will never know upon the physical plane.

### **Socrates**

**The Great - ♥Heart-Brain - Greek philosopher of Athens**

The Columbia Encyclopedia © 1967, 3<sup>rd</sup> Edition, page 1987

Socrates, famous for his view of philosophy as a pursuit proper and necessary to all intelligent men, he was one of the great historical examples of a man who lived by his principles, even though it ultimately cost him his life.

According to Plato, Socrates was widely known for his intellectual powers, even before Socrates was 40 years old.

In his self-appointed task as gadfly to the Athenians, he made numerous enemies ... in 399 BC, he was brought to trial for corrupting the youth and for religious heresies. Complex political issues surrounded the trial, but it seems that Socrates was being tried as the friend and teacher of ALCIBIADES and CRITIAS, both of whom had betrayed Athens. **The trial and death** are both described in the Apology, the Crito, and the Phaedo of Plato with great dramatic power. ( Sentences to death by drinking a solution from poisonous bark of the hemlock tree.)

Socrates became convinced that his calling was to search for wisdom about right conduct by which he might guide the intellectual & moral improvement of the Athenians.

His contributions to philosophy were a new method of approaching knowledge; a conception of the soul as the seat of both normal waking consciousness and of moral character; a sense of the universe as positively mind-ordered. The method called **DIALECTIC** consisted of “... **Examining your thoughts, statements, and actions by pursuing their implications, on the assumption that if they are true, they would not lead to false consequences ...**”

The method may have been suggested by ZENO of ELEA, but Socrates refined it and applied it to ethical problems. His doctrine of the soul led him to the belief that all virtues converge into one, which is the good, or knowledge of one's true self and purpose through the course of a lifetime. Knowledge in turn depends on the nature or essence of things as they really are, i.e., the forms of things are more real than their experienced exemplifications. This conception leads to the teleological view of the world that all forms participate in and lead to the highest form, the form of the good. Plato later elaborated this doctrine as central to his own philosophy. Socrates view is often described as holding virtue & knowledge to be identical so, no man knowingly does wrong. Since virtue is identical to knowledge, it can be taught, but not as a professional speciality as the Sophists had pretended to teach it. However, Socrates himself gave not final answer to how virtue can be learned.

( From this essay & from the Bible, we now know that Virtue can be learned by listening to “**The Wind – The ♥ Heart-Brain” - Solar Wind** ).

### **Virtue ...** ( The Columbia Encyclopedia, page 2261 )

In philosophy, a moral judgement of the good of human conduct. **4 Cardinal Virtues** - as presented by Plato were ... wisdom ... courage ... temperance ... justice. They are to be interpreted as descriptive of conduct rather than the initiating force. These virtues are achieved through proper training & discipline. They have been called natural virtues, as contrast with the **3 Christian Theological Virtues** of ... faith ... hope ... and charity. The theological virtues are regarded as dispositions for good residing in men. As early as the 14<sup>th</sup> century, they were combined with the Platonic virtues, and called **The 7 Cardinal Virtues**, figuring largely, with the opposing **The 7 Deadly Sins**, in such medieval literature as Dante's Divine Comedy.

**1 Corinthians 13-13.** And now these 3 remain: faith, hope and ♥Love. But the greatest of these is ♥Love.

**Socrates** felt compelled to express his views openly, regardless of the consequences. As a result, he is remembered today, not only for his sharp wit and high ethical standards, but also for his loyalty to the view that -- in a democracy the best way for a man to serve himself, his friends, and his city – even during times of war – is by being loyal to, & by speaking publicly about, the truth.”[40]. ... # **The Miracle of Blessing Power**

. <http://www.godsdirectcontact.org/eng/news/131/ss1.htm> .

**When you put 2 different waters here, one that's blessed and one that's not blessed,  
the one that's blessed will Sparkle with Light.**

4-day Christmas Retreat, Florida, USA, **Dec. 26, 2001**, Spoken in English by Supreme Master Ching Hai, ( Spiritual Teacher of the Quan Yin Method )

**Practitioner:** There is physical evidence today that when you bless something, **"you change its molecular structure."** I saw on the Internet that there is this Japanese scientist, ((( Dr. Masaru Emoto ))) , who took some water, like polluted water, for example, from a river in Japan. **And then he froze it and magnified it 500 times.** And he took a picture of it. The water that was very polluted had no shape; it looked like mud, just a big mud thing.

And then he went to a temple and asked one of the priests to bless the water, the same exact water, from the same sample. **Afterwards, he froze the water, took a picture, and the muddy look of it - became a beautiful crystalline structure. It's like a snowflake.** Then he decided to continue the experiment. He took another water sample and put **"Thank you"** on the container of water; he taped the words on it. And then he took a picture of that water and it had a different structure, he got a different snowflake picture - like the water had a language.

And then he took the water, and he said, **"Let's apply some music to the water."** So he put the water near hard rock, heavy metal rock, really noisy music. And that water was all distorted, and it looked like it had faces in it. Then he took the water and he said, let's say, "Mahatma Gandhi," or "Mother Teresa" near it. **And every single thought or every single word produced a - different - snowflake image.** The water changed every single time, even the polluted water. So it's really amazing when we think about Master's blessing food, and even ourselves, that we do even change the structure of the food or the water. And there's physical evidence of this.

**Master:** You know, I'm very shy. When you ask too much about what kind of power I have, I have a hard time explaining it. So I probably just tell you that they like the food or they like the cakes or something like that. But you have to find out for yourself. I'm not a very good advertising agent. I rarely talk about things like that.

If I say something, I say, "the Master," or "the Master power." **It's not me that I'm talking about.** The Master or the Master power, that is impersonalized. But just for the physical evidence ... **any priest or anyone with good intentions can bless something and make it better than nothing.** When someone with spiritual power blesses water, **it has Light, and you can see it.** **When you put 2 different waters here, one that's blessed and one that's not blessed, the one that's blessed will, "Sparkle with Light."**

. <http://truthworks.org/wp-content/uploads/2011/04/sparkles-on-the-water.jpg> . . . **Sparkling Water Pictures**

<http://ak4.picdn.net/shutterstock/videos/607543/preview/stock-footage-slo-mo-water-sparkles-blue-sun-reflections-on-lake-water-slowed-down-to-show-the-play-of-sun-s.jpg>

**Kids, they will go to it, or dogs will go to it. You don't have to tell them which one is the blessed water.** They will go & take it, instead of the other one because **they can – SEE - the Light.**

Not all kids can see; younger kids can see, and many dogs, they can see. **They can see the spiritual auras of people.** That is why some dogs bark at some people, but they don't bark at any-one else. **So, there is such a thing as spiritual power, or different energy from different people.**

Some-times you go out to eat in some restaurant or somewhere, and even though it looks clean, you still feel dirty. That is the energy; there's some blessing power that's missing. So a lot of people bring food to the temple or to the church to ask the priest or the commissioner, the nun or the monk, to bless them. This does have some effect, even though these monks and nuns, maybe they are not really practising Quan Yin, or any-thing. But they are sincere, they're pure and they have some blessing power. So it does work, to some extent, but not as well as with an **en-Light**-ened person, of course. But it's better than noth--ing, like the Japanese scientist showed. And when you say to someone, "Oh, bless your heart!," or "May God bless you," it really has an effect. So, do say these things. Do wish people well ... ### **Beautiful – Music – Thoughts – Pictures -- Words ( Written / Spoken )** **Turn Water Into Beautiful Crystal Snowflakes,** **When Frozen**

When directing words & thoughts at water, Dr Masaru Emoto discovered that the ones with **(+)positive** energy formed beautiful snowflake shaped crystals and the **(-)negative** words & thoughts formed ugly misshaped blobs, when the water was frozen to ( - 25 C ) below zero, and then magnified 200 – 500 x's, using “**Dark Field Microscope**,” with photographic capabilities ... . . . “Thoughts frozen in time.”

Also see page # 29 ... “Miracle of Blessing Power”

Small bottles of water have ...

1. words attached to it
2. pictures shown to it
3. music played to it

Because frozen crystal snowflake have a very short life cycle, the best opportunity to see & to photograph one forming, is to take 50 samples of water ( 0.5ml size drops ) from each bottle, & put each drop in its own “petri dish.” The water drops are then frozen for 3 hours at ( - 25 degree C ) in a freezer located within a larger walk-in “**Freezer-Lab-Room**” The room is a precisely controlled environment, kept at ( - 5 C ), making it the perfect place to use “**The Dark-Field Microscope** to photograph the frozen water crystal snowflakes. The crystals are magnified between 200 – 500 times their original size.

Remember, a babies body is over 90 % water ... a young adults body is about 80 % water ... the bodies of most people over 60 is about 70 % water, & even less with age, ( because, one of the hardest things to get a person over 50 to do is drink lots of water, rather than tea or coffee, which dehydrates ). So, if our thought & words can do this to water, just imagine what they are doing to us, **Emoto Frozen Water Crystal Lab** <http://www.hadousa.com/makingof.html> .

Mr. Emoto discovered that water was extremely sensitive to vibrations, & not only physical vibrations such as **music and speech**. He devoted several years to photographing the formation of ice crystals from water which had been “treated” in various ways. He had monks recite prayers over the water, played music for it ( the water ), even taped words on the outside of small vials of water, all with remarkably distinctive effect. Since water constitutes some 70% of both the human body and of the earth, his thesis is that, these experiments demonstrate empirically the direct physical impact our thoughts, speech and emotions have, not only on water, but on these larger, more complex systems which are largely comprised of water.

Dec. 11, 2011

by [Teo Siew Yong](#)

**When we express ♥Love, we become a channel for God's healing energy.**

I started volunteering as a teacher in mid June 2011 for an enlightenment-based children programme called **eN-Vidyalaya (it means knowledge of inner space)** which is a compassion-based tuition developed by an enlightened master, Paramahansa Nithyananda. In this 2-hour weekend programme, the aim is to equip children with practical life solutions and better understanding about themselves so that they can excel in the outer world while remaining centered and blissful in their inner space.

In one of the lessons, we did an experiment with the children about positive versus negative energies we expressed and its effect on the plants. This experiment was inspired by the famous Japanese doctor-cum-writer of the best-seller book **“Messages From Water,” Dr Masaru Emoto**, who claims that human consciousness has an effect on the molecular structure of water. I highly recommend anyone on planet earth to read this extraordinary book. ♥Love.

To begin, the children were given 2 plastic containers with a bunch of green beans and cotton pads. The task was to grow the beans sprouts in 2 separate containers, one marked with **“♥Love”** & the other container marked with **“Anger.”** Each day they were to talk to green beans. The container with **“♥Love”**, they had to say all sorts of positive things, direct their positive energy toward it & talk to it with ♥Love and compassion. On the other hand, for the container marked with **“Anger”**, they had to direct anger and talk to it negatively, even to shout at it. After one week, they brought their 2 containers of beans sprouts with much enthusiasm and showed me the visible difference in terms of how the growth of the beans sprouts. See photographs below. One could visibly see the **“♥Love”** beans sprouts grew healthily taller with luscious leaves whereas the beans sprouts in **“Anger”** containers had stunted growth or some died prematurely with dried leaves.

### **What we have learned about this simple experiment that we can apply in our lives:**

- **Effects of (+)Positive // (-)Negative energy ... .** We found that the positive energy of ♥Love made the plants grow whereas the negative energy of anger caused the plants to wither or even stunt its growth. **Positive energy gives us strength** while negative energy makes us sick. **Positive energies** such as ♥Love, compassion, trust, gratitude, forgiveness and peace can affect people around us. For our children of this century, **the more we express positive energies**, the more they will grow up to be beautiful beings with a blissful inner space.

## “The Lost Knowledge and Forgotten Wisdom of The ♥ Heart”

### ♥ Love -vs- Anger

- **Think twice before using (-)negative words ... ..** We have to think twice when we express negative energy in terms of thoughts, words and actions to people and plants around us. In fact, one of the eN-Vidyalaya children's mother came to share with me an incident after the experiment. One occasion, she got angry with her 4- years-old daughter. The girl told her mother not to be angry as she did not want to be like the “Anger” plants! She was immediately put back in awareness.
- **Children grasped the truth and live it ... ..** Children, by their very nature, they are born with innocence, wisdom and joy. Unlike adults, they are not yet conditioned by the society. The moment they learn about a truth, they simply live it. For adults, our mind continues to analyze, resist and judge it before we are willing to live it. Imagine. If children are exposed to such practical life solutions at a young age, their inner space will be filled with ♥Love and compassion.
- **Awareness is important ... ..** This experiment had helped me to become aware of my tendency to flare up whenever the issue of my son's lazy behaviour gets on my nerves. Now, I would witness the anger energy as outsider and direct the energy to do something about it - such as how to inspire him, how to make it creatively interesting to engage him, or simply use humour to laugh at myself. My son knows how to crack me up to diffuse the tension. When a profound truth hits me at my being level, I become aware of my anger mental pattern. **In fact, biologists tell us that repeated behaviour actually rewires the brain.** Our neural networks of **brain grooves get formed with repeated behavioural patterns** – this means, **Anger breeds Anger** or ♥Love breeds ♥Love. The choice remains a conscious awareness on our part.
- **♥Love is healing energy ... ..** ♥Love is concentrated caring energy which can bring tremendous healing to others including plants, trees and our planet earth. ♥Love is an energy that gives happiness to all people. ♥Love is also a language all the living things understand. When we express ♥Love, **we become a channel for God's healing energy.** ♥Love is the only thing that increases as we give to others. At the core of our being, we are ♥Love. So whenever anger arises, be aware to choose ♥Love. Then the world will be such a ♥Loving place to be. See Bible quotes - bottom page #20( b ) ... John 13:34, Matthew 5:44; 22:35-40

What would our world be like today if these top 10 spiritual truths were taught in our schools, in the mainstream media, in our history books ?? How can we change system to introduce these topics to our future generations ?? What will the world be like after successfully recognizing these spiritual truths ??

**1. We are spiritual beings on a human journey.** ... Jan. 30, 2010 ... <http://www.in5d.com/we-are-spiritual-beings-on-a-human-journey.html> ... Before we came down into this physical body, we planned out the point in time that we would begin to awaken to who and what we are. The womb of our mother was the tunnel of forgetting, and we knew the challenge of remembering would be tough. The biggest risk we took was never remembering. We were never disconnected from our source of light, however the connection was stretched very long and thin to reach this part of the universe in density. Our challenge is to strengthen this connection and to grow our pillar of light in remembrance and recognition of who we truly are.

**2. Our souls never die** - we just change our focus. ... **Death Is Just An Illusion: We Continue To Live In A Parallel Universe** ... Jan. 4, 2013 ... <http://www.in5d.com/death-is-just-an-illusion.htm> ... As a spark of light from Source, we are infinitely connected to the flow of experience. When it is time to disconnect the cord of life from our physical body, our spark rises up and out of the human physical body. We take the experience of our lifetime with us, but our focus is changed to a slightly different level of vibration. We still exist as the person we were in human form as well as the many people we have been before. Every lifetime builds experience and wisdom.

**3. Everything is energy** vibrating at a certain frequency. ... **Ancient Secrets: The Truth About Energy Healing** ... Sept. 24, 2013 ...

<http://www.in5d.com/ancient-secrets-the-truth-about-energy-healing.html> ... All living things on earth have consciousness, even rocks and trees. Everything and every-one is connected to a “tree of life” or an infinite energy source. We can connect to the consciousness of trees and rocks and can carry on conversations with them by tuning in to their particular vibrational frequency. Our bodies are 90% water and can be programmed and molded to a certain **vibrational frequency via thoughts, sound, color, and love**. **When** we understand vibration, we can understand how alternative and holistic treatments can cure any disease or ailment in the body by changing the water vibration.

**4. Our thoughts create our reality ... All Thoughts Are Energy** ... Sept. 30, 2010 ... <http://in5d.com/all-thoughts-are-energy.html> ... All thoughts are energy which manifest into what we see as reality. Always being aware of your thoughts is one of the first steps in responsible co-creation of your reality. It is a simple concept but takes awareness and work. If every person on earth changed their thoughts towards peace and freedom there would be no war or tyranny. Focusing on negative thoughts will create a lower vibrational frequency and focusing on positive thoughts can raise the vibrational frequency. Our reality is a manifestation of what we create through thought patterns.

**5. We are the ones we have been waiting for. ... Exciting Days Ahead, Indeed!** ... Dec. 17, 2012 ... <http://www.in5d.com/exciting-days-ahead-indeed.html> ... There are many races and dimensions of beings on the planet at this time. Cherubim angels, Seraphim angels, Archangels, Pleiadians, Orions, Sirians, Arcturans, Anunnaki.... just to name a few. We volunteered to be here at this time, answering the call from the consciousness of Planet Earth as she cried out for help. We came here from other galaxies, universes, and cosmoses. Many came here each time there was a chance to achieve a “golden age” after the “fall.” Although those times were not completely successful, they were all preparation for this time.

**6. Most of us incarnated here before-** many times, in order to prepare for this current lifetime. ... **In Order To Incarnate To Earth You Had To Master Manifestations** ... Mar. 13, 2013 ... <http://www.in5d.com/master-manifester.html> ... There are souls who are here to be wayshowers and leaders and there are souls here who just wanted to be here to witness the raising of vibration of the human race in concert with the planet, which will affect the solar system, the universe, the cosmos, and beyond. For those who lead by example, our schooling never stops. We had many “classes” to take in order to prepare to master ourselves in this incarnation. The scope of the effect this event will have on all of creation is one of the biggest secrets of all. Some say that the incarnation cycle has ended and this lifetime is the opportunity to release ourselves from the wheel of karma, or the need to balance our actions.

**7. We are never alone.** We could not exist here without help from our **spirit guides and angels, or high vibrational beings of light** who made agreements with us to help steer us on the path toward the goal of ascension. ... **Spirit Guides and Guardian Angels** ... Nov. 6, 2012 ... <http://www.in5d.com/spirit-guides-and-guardian-angels.html> ... They exist in another vibrational level or dimension higher than ours- thus most of us cannot see them. They are always with us and are waiting patiently for us to ask for help, as we live on a free will planet. They abide by laws of interference because of our free will, but if we ask with our highest and best interest they do have creative ways of manifesting what you ask for. Most guidance comes from within- through a process of telepathy where you get an idea in your head. Messages can also come from other people- those who can tap into that vibrational level in order to hear what they have to say.

**8. Time is an illusion. ... Edgar Cayce - Time and 'No Time'** ... Aug. 8, 2013 ... <http://www.in5d.com/edgar-cayce-time-and-no-time.html> ... We have a past and we have already been to the future. The majority of our energy particles (our souls) exist in a place of “no time”. Time is created in order to experience and is part of the controlled experiment. Meditation or “going within” is the key to returning to the place of “no time” where all the answers lie.

**9. Ascension does not involve going anywhere. ... What is Ascension ??** ... Jan. 30, 2010 ... <http://www.in5d.com/what-is-ascension.html> ... It is a state of being, a focus of awareness and consciousness into a higher vibrational frequency. It is what we were created for- to “go forth and experience”, and return the experiences back to Source in an infinite loop of co-creation and mastery. The main reward of incarnating in the depths of “hell” at this time is rising like the phoenix from the ashes into the bliss and light of love. This is achieved by being love itself.

**10. Love is all there is. ... Despite the Turmoil, Are You Feeling the Love?** ... Jan. 30, 2013 ... Finding and reconnecting to love again is the most important thing we can do as humans. Source is ... <http://www.in5d.com/despite-all-of-the-turmoil-are-you-feeling-the-love.html> ... unconditional love, & we are sparks of source- which means we are also love. Therefore we are that we seek. Loving ourselves unconditionally is the key to returning to source.

Change starts with each individual person recognizing these truths. We are not responsible for trying to convince others of our own truth, but instead all we have to do is to “be” truth and the rest will follow. How do we do this ?? Be the example by speaking your truth, and watch the world change before your eyes. By becoming responsible for ourselves, our thoughts, and our actions, we will have made one great leap toward the future of our children and the future of humanity as spiritual beings on a human journey. We have the greatest opportunity ever in the history of the earth to be the best version of a human being we can be. It is simply up to us as to how glorious we create the future of humanity existing on the spaceship we call Earth.

## **12 Major Universal Spiritual Laws**

<http://www.mayanmajix.com/12waystoabundance.pdf>.

Oct. 23, 2014

by Victoria Shabunin

Spiritual Healer, Psychic Medium & Spiritual Teacher

Our universe runs by the universal laws. There are 12 major universal laws that I would like to share with you here. By applying these laws consistently into my everyday life, I was able to achieve abundance within and out. These laws work all the time and every time. All of these laws are equally important.

### **The 1<sup>st</sup> universal law -- The Law of Divine Oneness.**

This law helps us understand that we live in the world where everything and everyone is connected to one another. Everything that we do, say, think or believe affects everyone and everything in the universe. So try to come from a place of love when doing things, saying words, thinking thoughts and believing. We are all love, light, wisdom and energy.

### **The 2<sup>nd</sup> universal law -- The Law of Vibration.**

This law teaches us that everything in the world moves and vibrates in a circular motion. Even words, thoughts, feelings, emotions, desires and wills have their own vibrations. So by raising the vibrations, you will achieve positive results. By focusing on love and light you will be able to achieve high vibrations.

### **The 3<sup>rd</sup> universal law -- The Law of Action.**

This law states that every action has a reaction. In order for us to manifest things we must apply this law. Make sure to engage in actions that support your dreams, desires, wishes and your Higher Self.

### **The 4<sup>th</sup> universal law -- The Law of Correspondence.**

This law tells us that the laws of the physical world have their corresponding laws in the etheric world. So in order for you to achieve abundance in the physical world, you must first achieve it within. In order to manifest things in the physical world, you must start from within.

### **The 5<sup>th</sup> universal law -- The Law of Cause and Effect.**

This law states that nothing happens by a chance or outside the universal laws. What you send out into the universe is exactly what comes back to you. So be sure to send out positive energy and high vibrations.

### **The 6<sup>th</sup> universal law -- The Law of Compensation.**

This law helps us understand that our good deeds do not go unnoticed and that we will receive compensation in the form of blessings. These blessings can come in many forms, some of them are: gifts, money, friendships, love and so forth. There are no limits to what type of blessing we receive for all the good deeds.

### **The 7<sup>th</sup> universal law -- The Law of Attraction.**

This law demonstrates that we create and attract everything into our lives. Our actions, words, thoughts, feelings and emotions produce energies that we send out into the universe, which attract like energies. Negative energies attract the negative and positive energies attract the positive. If you want to attract the best thing into your life then you need to think and speak positively, visualise and affirm what you want consistently. Whatever you will focus your energy on, is what you will attract.

### **The 8<sup>th</sup> universal law -- The Law of Perpetual Transmutation of Energy.**

This law teaches us that we all have the power within us to change the conditions in our lives. By raising our vibrations we are able to transform the negative energy into positive energy and the other way around. Don't wait for someone to help you, take your own life into your hands and start creating the life that you want, since you have the power to do so.

## THE WAY TO ABUNDANCE

### 12 Major Universal Spiritual Laws

#### **The 9<sup>th</sup> universal law -- The Law of Relativity.**

This law helps us understand that all of us will receive a series of obstacles and challenges in life, all for the purpose of growth. We all have to learn the hard way. Don't think for one second that you are a victim or being punished for something. Having fun, being at peace, teaches us nothing, this is why our lesson may seem like problems in life. When we do not learn the lessons from the first time, this is when we create repetition in life and find ourselves in the same situations over and over again. Once you learn the lesson or overcome a challenge, you will never have to deal with it again and can easily move forward on your journey.

#### **The 10<sup>th</sup> universal law -- The Law of Polarity.**

This law shows us that everything has its opposite. Feminine energy and masculine energy, positive energy and negative energy, light and dark, hot and cold and so forth. The key to becoming a master is to have a perfect balance among these energies.

**The 11<sup>th</sup> universal law -- The Law of Rhythm.** This law tells us that everything has a vibration and moves in rhythms. These rhythms establish cycles, stages, patterns, seasons, birth and death. When the vibrations and energies in the universe change, so do rhythms. Rise above the negative rhythms of cycles by never giving it too much focus and energy. Don't dwell on the past, focus on the moment and look forward to the future.

**The 12<sup>th</sup> universal law -- The Law of Gender.** This law lets us know that everything has its masculine and feminine energies or the yang and the yin. In order to master these energies, you must find a perfect balance between the two.

By learning, understanding and applying these universal laws, I was able to create the life that I wanted. By being consistent with these principles and living by these laws, I was able to achieve abundance within, which allowed me to achieve abundance in the physical world. Believe in you and do what's best for you, cause everything is possible.

Since we are like pigments in our absorption of the Light of consciousness, the mixing of pigments can help us see that our aura can be created in either of 3 ways ... **A.)** reflecting off the Light and not taking it in, or ... **B.)** by our taking in of Light and re-radiating it in the aura, or ... **C.)** by our taking in of Light and not re-radiating it, in which case, the aura shows what is left in white Light after certain colors have been subtracted from it. This is why the person who absorbs all 7 colours and re-radiates none, has a black aura, whereas, a person who re-radiates all 7 colors has a white aura. In **(B.)**, the human chakra system is analogous to a filter. ... . From **“Nuclear Evolution,”** 1997, pages 217, 218 and 219, by Christopher Hill.

( - ) **Negative Emotions ... ( Physical, “Lower Mind” consciousness ... Brain Stem, B.S. – Left Brain ). Brain Stem – is most primitive part of brain, and is the 1<sup>st</sup> to develop. It deals with survival instincts of, fight or flight, greed, frustration, anger, hatred, Wars, unhappiness, jealousy, fears, negativity of all kinds. They all generate chaotic and weak, high frequency heart-waves on the graph, see below. The Brain Stem is where your own personal negative Belief System develops = your own personal Bull Shit = ignorant, faulty thinking, unenlightened thinking, & is where the concept of the Devil comes from in many religious beliefs. See pages # 30 and bottom page #1, ( John 3:19-21, 8:41, 8:43-44, 10:10 ).**

**John 3:19-21 ...** 19 This is the verdict: Light has come into the world, but people loved darkness instead of light because their deeds were evil. 20 Everyone who does evil hates the light, and will not come into the light for fear that their deeds will be exposed. 21 But whoever lives by the truth ((( by the ♥Heart Brain, H.B ))) comes into the light, so that it may be seen plainly that what they have done has been done in the sight of God.

**John 8:41 ...** 41 You are doing the works of your own father.” We are not illegitimate children,” they protested. “The only Father we have is God himself.” 42 Jesus said to them, “If God were your Father, you would love me, for I have come here from God. I have not come on my own; God sent me.

**John 8:43-44 ...** 43 Why is my language not clear to you ?? Because you are unable to hear what I say. 44 You belong to your father, the devil, ( Brain-stem // Left-brain ), and you want to carry out your father’s desires. He was a murderer from the beginning, not holding to the truth, for there is no truth in him. When he lies, he speaks his native language, for he is a liar and the father of lies.

**John 10:10 ...** The thief (( Brain Stem, B.S )) comes only to steal & kill and destroy; I have come that they may have life, & have it to the full

( + ) **Positive Emotions ... ( Spiritual, Higher Mind consciousness & functioning ... ♥Heart Brain, H.B. - Right Brain, Front Brain, Top Brain ). This is where you find ♥ Love, appreciation & Gratitude, kindness, Light, happiness, patients, Truth, etc. They all generate very orderly, low frequency, but very powerful waves on graph below. Significance of this is far more than a casual scientific curiosity as we shall come to see. See page #30. H.B = “Wind = Holy Spirit = Spirit of Truth = voice of God, Jesus, Angels, Intuition” Page # 6. (( John 14:6; 3:21; 13:34-35; 8:31-32; 8:51; 6:40 ... 3 John 1:4 )) Isaiah 11:2 ... Ephesians 1:17**

\*\*\* Galatians 5:22-23 ... 9 Fruits of the Holy Spirit “ ... Love ... joy ... peace ... patience ... kindness ... goodness ... faithfulness ... gentleness ... self-control. Against such things there is no law ...” ((( are God’s divine personality & character traits that are worked in over time into the Christian human spirit ... \*\*\* John 12: 25-26 ... 25. Anyone who loves their B.S. life, will lose it, while anyone who hates their B.S. life in this world, will keep their ((( H.B. Life ))) it - for eternal life. 26. Whoever serves me, H.B., must follow me: & where I am, my H.B. Servants also will be. My father will honor the one who serves me.

\*\*\* John 13:17 ... Now you know these things, you will be blessed if you do them.

**John 14:6 ...** Jesus answered, “I am the way and the truth and the life (((♥Love, ♥Heart Brain))). No one comes to the Father except through me. (((♥Love, ♥Heart Brain))).

**John 3:21 ...** 21 But whoever lives by the truth ((( by the ♥Heart Brain, H.B ))) comes into the light, so that it may be seen plainly that what he has done has been done through God.” ... ((( Holy Spirit, Spirit of Truth, Wisdom & Understanding )))

**John 13:34-35 ...** 34 “A new command I give you: ♥ Love one another. As I have ♥ Loved you, so you must ♥ Love one another. 35 By this everyone will know that you are my disciples, if you love one another.”

**John 8:31-32 ...** 31 To the Jews who had believed him, Jesus said, “If you hold to my teaching, you are really my disciples 32 Then you will know the truth, and the truth will set you free.”

**John 8:51 ...** Very truly I tell you, whoever obeys my word, ((( ♥Heart - Brain words ))) will never see death.”

**John 6:40 ...** For my Father’s will is that everyone who looks to the Son and believes in him shall have eternal life,

**3 John 1:4 ...** have no greater joy than to hear that my children are walking in the truth.

Neil Diamond 1982 Song ... “Turn on your ♥Heart-Light, let it shine where ever you go, let it make a happy glow for all the world to see” ... and also ... Remember the “End” of the 1982 movie ... “E.T. - The Extra-Terrestrial,” by Steven Spielberg ... When ET comes back to life – then ET’s ♥Heart lights-up, bringing back to life, the dead & dried out flower in the room. ( John 8:12 ... Jesus, I am light of the world )

**Psalms 82:6 ...** “I said, ‘You are “gods”’; you are all sons of the Most High.”

**“The Power Of Wonder” ... Matthew 18:3 ...** “Truly I tell you, unless you change & become like little children, you will never enter Kingdom of heaven.”

Scroll down to the diagram of ... Heart centered magnetic energy field lines radiating out from the Heart center of the body.

**The heart is the most powerful generator of electromagnetic energy in human body**, producing largest rhythmic electromagnetic field of any of the body's organs. Heart's electrical field is **about 60 times greater in amplitude than the electrical activity generated by the brain**. This field, measured in the form of an electrocardiogram (ECG), can be detected anywhere on surface of the body. Furthermore, the magnetic field produced by the heart is **more than 5,000 times greater in strength than the field generated by the brain**, and can be detected a number of feet away from the body, in all directions, using SQUID-based magnetometers (Figure 12). Prompted by our findings the cardiac field is modulated by - different emotional states (described in the previous section). We performed several studies to investigate the possibility that **the electromagnetic field generated by the heart** may transmit information that can be received by others.

Lots of mapping of brain frequencies have taken place, but the Heart, he points out, is much more powerfully electrical than the brain. Heart activity must be **screened out** when doing an EEG on brain. **What he found is as significant as it is amazing.** ( When going to war, and chemically poisoning our food and environment, or lack of forgiveness, feelings of hate, etc., etc., etc., you must also **screen out ♥Love** ).

( - ) **Negative Emotions ... ( Physical, “Lower Mind” consciousness ... Brain Stem - B.S. – Left Brain )**. Brain Stem – is most primitive part of brain, and is the 1<sup>st</sup> to develop. It deals with survival instincts of, fight or flight, greed, frustration, anger, hatred, Wars, unhappiness, jealousy, fears, negativity of all kinds. They all generate **chaotic and weak, high frequency heart-waves** on the graph, **see below**. The **Brain Stem** is where your own personal negative **Belief System** develops = your own personal **Bull Shit** = ignorant, faulty thinking, unenlightened thinking, & is where the concept of the Devil comes from in many religious beliefs. See pages # 30, bottom # 4, ( John 3:19-21, 8:41, 8:43-44, 10:10 ).

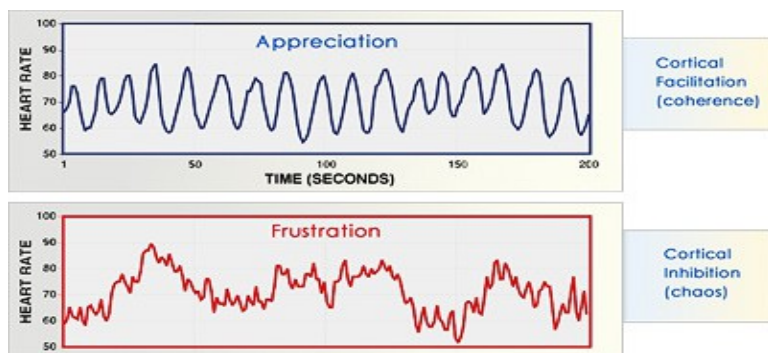

( + ) **Positive Emotions ... ( Spiritual, Higher Mind consciousness & functioning... ♥Heart Brain - H.B. - Right Brain, Front Brain, Top Brain )**. This is where you find ♥Love, appreciation & Gratitude, kindness, Light, happiness, patients, Truth, etc. They all generate very **orderly, low frequency, but very powerful waves** on graph below. Significance of this is **far more than casual scientific curiosity** as we shall come to see. Page # 30. H.B also = “Wind = Holy Spirit = voice of God, Jesus, Angels, Intuition” **Pages #6, 13, 20.** (John 14:6; 3:21; 13:34-35; 8:31-32; 8:51; 6:40 ... **3 John 1:4**)
