

MAYAN ASTROLOGY READINGS WITH KENNETH JOHNSON

Experience authentic Mayan astrology readings with Kenneth Johnson, author of “Jaguar Wisdom” and “Mayan Calendar Astrology,” (<http://jaguarwisdom.org/books/html#books>), who is now offering Mayan Calendar readings precisely as he learned the art from Maya teachers in Guatemala. <http://www.jaguarwisdom.org/astrology.html>

Ken’s approach is very different from other Mayan astrology readings that you will find elsewhere on the Internet. With the exception of “The Path of Feathered Serpent,” there are no print-outs here. Ken’s readings are conducted as they would be in Guatemala. In actual practice, Daykeepers use the information contained in one's birth chart to help people find new approaches and solutions to their life issues and challenges. This, of course, can only be accomplished through actual dialogue between astrologer and client. Ken has worked personally with several well known Maya teachers. Many of you may be familiar with the "five-sign horoscope" which has been popularized to some degree outside of Guatemala. Some may be familiar with the more complex nine-sign horoscope employed by other astrologers in Guatemala. Ken uses all these techniques as well as some which are entirely unknown outside of the K’iche’ highlands of Guatemala.

- Each client receives a pdf of her or his Mayan Horoscope containing the factors covered in either the “Essentials or “El Grande” packages.
- All readings are conducted through skype.
- Clients are encouraged to address the issues which are of most importance to them to serve as topics for discussion during the reading.
- All readings are recorded as mp3 files and e-mailed to the client.
