Words From The Hopi People

**There is a river flowing very fast
It is so swift there are those who will be afraid
They will try to hold onto the shore
They will feel they are being torn apart
And will suffer greatly
Know that the river has a destination
The elders say we must let go of the shore
Push off into the middle of the river
And I say see who is in there with you and celebrate
At this time in history we are to take nothing personally
Least of all ourselves
For the moment we do our spiritual growth comes to a halt
The time of the lone wolf is over
Gather yourselves together, as we are tonight
Banish the word struggle from your attitude and vocabulary
All that we do now must be done in a sacred manner
And in celebration
We are the ones we are waiting for
Ahoy!**

Calendars and Consciousness

Consciousness

What you pay attention to you become conscious of.

The definition of consciousness is the awareness of being aware.

Calendars

Calendars are the absolute centre of any civilisations consciousness.

Everything that happens and how it is perceived is in relation to the calendar.

Consciousness always has an orientation.
In current civilisations it is in time and place.

The centre of time and place
is your viewpoint of reality.

Things to note:

Time is a consideration - it is flexible.

Time is an agreement between people - it is an abstract idea, and the agreement is within a calendar.

Place is an agreement between people - every place has its own consciousness.

Therefore:

The centre point of time and place is where your consciousness is.

Your consciousness is your viewpoint and your viewpoint is always based on a time and place.

The Gregorian Calendar

- ⇒ Started in 1582 by Pope Gregory
- ⇒ Based on the Sun and Earth relationship, and the Earth orbits around the Sun every $365 \frac{1}{4}$ days.
- ⇒ Our whole consciousness is focused on the one body going around another.
- ⇒ Our whole civilisation's consciousness is focused on the physical and nothing else.
- ⇒ All business is run on this calendar.
- ⇒ The first year of the Gregorian Calendar was call the '1st Year Of Our Lord', and this prefixed any year date. Now there is almost no spirituality left anymore.
- ⇒ Therefore our whole calendar is about the physical.

The Mayan Calendars

The Maya had as many as 18 calendars, but 3 have been the focus of modern Mayan Calendar researchers.

Tzolkin

> 260 days.

> called the 'Count of Days'.

> was the personal or astrological calendar

first name of a person was the name of the day on the calendar.

> made up of:

13 Intentions of Creation (numbers) and 20 Aspects of Creation (day-signs) ($13 \times 20 = 260$)

Tun

> 360 days.

> was the divine or prophetic calendar.

Haab

> 365 $\frac{1}{4}$ days.

> Nothing was ever recorded using this calendar; it was only used for the collection of taxes and measuring the agricultural seasons, when to plant, harvest etc.

The Mayan Calendars

The Tzolkin revolves and turns the Tun.

Therefore:

- The Tzolkin imparts its meaning to the Tun.
- Every 52 revolutions of the Tun every possible Aspect and Intention of creation has been experienced.

The Pyramid of Cycles of Creation

28th Oct 2011 ↓

10 th Feb 2011	- Universal	20 days
5 th Jan 1999	- Galactic	360 days
1755 AD	- Planetary	20 yrs
3115 BC	- National	400 yrs
102,000 years ago	- Cultural	8000 yrs
2 million years ago	- Tribal	160 k/yrs
41 million years ago	- Familial	3.2 m/yrs
820 million years ago	- Mammalian	63 m/yrs
16.4 billion years ago	- Cellular	1.26 b/yrs

1 st day	1 st night	2 nd day	2 nd night	3 rd day	3 rd night	4 th day	4 th night	5 th day	5 th night	6 th day	6 th night	7 th day
---------------------	-----------------------	---------------------	-----------------------	---------------------	-----------------------	---------------------	-----------------------	---------------------	-----------------------	---------------------	-----------------------	---------------------

13 Intentions of Creation

Conscious Evolution of Each Cycle

9 th Cycle (Universal)	Conscious Co-creation
8 th Cycle (Galactic)	Ethics
7 th Cycle (Planetary)	Power
6 th Cycle (National)	Law & Punishment
5 th Cycle (Cultural)	Reasoning
4 th Cycle (Tribal)	Similarity/Difference
3 rd Cycle (Familial)	Stimulus/Individual Response
2 nd Cycle (Mammalian)	Stimulus/Response
1 st Cycle (Cellular)	Action/Reaction

The Days and Nights of the Cycles

7th day
Contemplation

god of
manifestation

6th day
Renaissance of
consciousness

god of flowers

6th night
Healing of
consciousness

god of
medicine

5th day
Breakthrough in
consciousness

god of fire

5th night
Death of old
consciousness

god of death

3rd day
Anchoring of the
truth

god of water

3rd night
Application of
the truth

god of moon

4th day
New foundations

god of rain

4th night
Application of
new foundations

god of
intoxication

1st day
Beginnings of
consciousness

god of
procreation

1st night
Activated
consciousness

god of wind

2nd day
Expansion of
consciousness

god of sunrise

2nd night
Reaction of
Consciousness

god of dance

Part 2

The 5th Day and Night of each Cycle of Creation

1st cycle

- 5th day – The Sun and Planet Earth formed in the solar system (the theory of a living Gaia would naturally begin here).
- 5th night – meteor bombardment.

2nd cycle

- 5th day – (315 million years ago day started) life moves out of the oceans on the land (biggest explosion of life in natural history).
- 5th night – 97% of life eradicated from the land.

3rd cycle

- 5th day – natural historians think true colour vision started.
- 5th night – unknown.

4th cycle

- 5th day – (800,000 years ago) fire was discovered (all over the world within about 2 thousand years peoples from different continents were discovering fire independently of each other).
- 5th night – (640,000 years ago) Ice age starts.

5th cycle

- 5th day – (40,000 years ago) man creates art (for the first time mankind thinks in abstracts.)
- 5th night – (32,000 years ago) Neanderthal Man goes extinct.

6th cycle

- 5th day – 40 AD Paul has a passion about Jesus Christ proclaiming people can talk straight to God and sanctified priest are no longer needed.
- 5th night – 411 AD Rome fell and the beginning of the end of the Roman Empire.

7th cycle

- 5th day – 1913 publication of $E=MC^2$ (this is the blueprint of our reality) Hubble (1924) discovers we live in an infinite universe (in an infinite universe nothing is impossible).
- 5th night – 1932 Hitler rises to power and starts the process of events for WW2, 1st atomic bomb detonated.

Examples of Evolutions Through the Cycles

1st Day

– Y2K (meaning everything can happen so be prepared) (Industrial Revolution 1755)

1st Night

– 9-11 (proving what was thought impossible happened) (1st May 1776 Illuminati started)

2nd Day

– display of polarity [patriot versus terrorist/good versus bad]

2nd Night

– French/Indian war, USA invades Afghanistan and Iraq

3rd Day

– massive out pouring of life: homo erectus and Neanderthal man appeared, foundations of Greece laid down, telegraph invented, Darwin published 'Origin of Species' (major truths come forward/out)

4th Day

– invention of the spine, 1st Olympic games, Homer writes the 'Odyssey', Telephone developed (developments of new systems)

4th Night

– end of Greek civilisation

5th Day

– animals move to land from the sea, colour vision develops, control of fire by hominid species, art invented, Jesus Christ appears and says that we are divine and can speak straight to God, $E=MC^2$, radio transmissions started, Hubble discovered universe is infinite (new break throughs in consciousness)

5th Night

– WW2, atomic bombs, end of Japanese empire, European countries work to eradicate war in Europe (death of old consciousness) (Council of Nicea starts the Roman Catholic Church)

6th Day

– Renaissance period in Europe, King Arthur in England, golden age of Mayan and Anasazi civilisations

World Economy During the Planetary Cycle

1st Day – 1776 gold back continental currency

1st Night – 1772 British and Dutch economies collapse

2nd Day – 1794 US mint established and issue gold and silver backed currency

2nd Night – 1819 British and US economic collapses

3rd Day – general well being and economic improvements globally

3rd Night – 1857 US and Europe economic collapses, 1876 German economic collapse

4th Day – US government mints new coins (investment from Europe in rail roads)

4th Night – 1893 US depression, 1903 French and India economic failings

5th Day – 1913 US Federal Reserve started (great conscious opening for the money/power brokers)

5th Night – 1931-33 Great Depression

6th Day – US pledges to world to pay every nations' debt in gold involved in WW2 (US went off gold standard in 1973)

6th Night – 1973 US went off gold standard and pulled back agreement. US pays only in Federal Reserve notes, 1973 runaway inflation and oil companies value rose by 10%

7th Day – 1992 technology bubble in the stock market

The Days and Nights of the Galactic Consciousness

1st Day – seeds of consciousness planted

1st Night – consciousness is activated

2nd Day – polarity displayed

2nd Night – old and new consciousness collide

3rd Day – truth rolls out

3rd Night – adjustments to the truth

4th Day – new foundations of human relations

4th Night – ethical procedures implemented

5th Day – we meet our galactic neighbours

5th Night – end of manufactured lack

6th Day – consciousness surpasses technology

6th Night – bliss, we need the practice

7th Day – we evolve to conscious co-creation of existence and experience

When Do We Reach The End - 2011 or 2012?

EVOLUTION IS NOT ABOUT DATES – IT IS ABOUT CONSCIOUSNESS

This concept is backed up by so many other researchers, scientists, humanitarians and peoples from around the world who have no idea about 2011 or 2012, yet they all recognise that people and their consciousness is changing. There is a global, synchronistic and powerful shift sweeping through people and they are opening up to the possibilities of change, in bigger, more pronounced, faster ways than ever before. The Light Workers are coming out. The men of power are no longer hiding in the shadows. Nature is changing and so are we.

➤ The important bit is about our 'oneness':

- >The four parts making the whole,
- >four races of man as a single species, (red, white, black and yellow)
- >four types of people as an individual (young, old, female and male)
- >four forces making the one (electromagnetic, gravitational, strong and weak nuclear forces),
- >four direction making the centre (east, west, north and south)

Part 3

Knowledge is Power

According to the Oxford Advanced Learners Dictionary:

knowledge:

- 1) understanding of or information possessed about a subject
- 2) awareness.

power (CONTROL)

- 1) ability to control people and events.

power (STRENGTH)

strength

Intelligence and Wisdom: intelligence is knowing what rain is, wisdom is knowing how to use an umbrella.

There are good and bad things to knowledge and power:

Good things

-there are more changes in time = there are more possibilities that can occur = more outcomes there are.

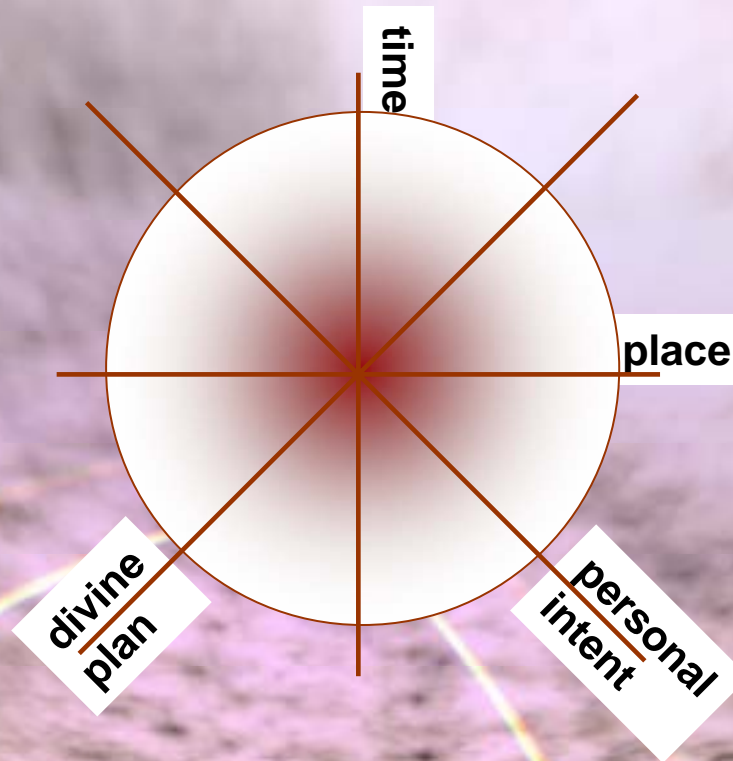

Bad things

-Stress - The mind's inability to deal with the stresses of change results in psychological damage.

Knowledge is Power

Maya had a 3rd orientation to their existence called Personal Intent

And a 4th orientation called Divine Plan

This Mayan symbol is called: Eight Division Sky Place

Conscious is orientated by time, place, your own personal intent for being there at that time and your intuition that you were tied up in something much bigger than yourself.

The Options of Past, Present and Future

In the past:

goal

Less things happening and options to take to get to your goal.

In the present:

goal

More things happening and more options to take to get to your goal.

Time to get to your goal is reduced.

In the future:

goal

Even more possibilities and more will become available with every moment and the acceleration of development constantly increases.

**At the end of the calendar absolutely everything happens/all exists at the same time with no limit on time.
The only limit is imagination by which time imagination is as infinite as the universe.**

The Coming Together of Modern Science and Ancient Wisdom and Mysticism

The Last Days

The Mayans called the last part of the calendar (the last 13 year period to 2012 end of the long count) the Age of Revealing (when the mask comes down). The bible reiterates this in the story of the apocalypse (revelation = revealing) (apocalypse means covering in Greek)

As Above So Below

Connections between the microcosm and the macrocosm (psyche and the world)
Dr George W Crille of the Cleveland Laboratories announced that he had discovered at the heart of every living organism a tiny molecule of energy, all aglow, with temperatures ranging from 3000 to 6000 degrees of heat, which he called “radiogens” or “heat points” precisely akin to the radiant energy of solar matter. He affirmed, that a tiny particle of the sun’s power and radiance was lodged within the heart of every organic unit.

The Coming Together of Modern Science and Ancient Wisdom and Mysticism

Deepak Chopra goes further: Photons come out of nowhere, they cannot be stored, they can barely be pinned down in time, and they have no home in space whatsoever. That is light occupies no volume and has no mass. The similarity between a thought and a photon is very deep. Both are born in the region beyond space and time where nature controls all processes in that void which is full of creative intelligence.

In the early 1980's thanks to the development of a sophisticated measurement device, a team of scientists demonstrated that the cells of all living beings emit photons at a rate of up to approximately 100 units per second and per square centimetre of surface area. They also showed that DNA was the source of this photon emission.

The Coming Together of Modern Science and Ancient Wisdom and Mysticism

The Mayan Calendar is the only calendar known to be based on Galactic Cycles. The Mayans claimed they created this calendar in order to monitor the light coming from the centre of the galaxy and how it affected our DNA.

We now know through the work of Fritz Popp that DNA not only absorbs lights but also emits light. DNA also appears to be the bridge between our physical and etheric bodies.

There is a harmonic relationship between the Earth and our mind/body. Earth's low frequency isoelectric field, the magnetic field of the Earth and the electrostatic field that emerges from our bodies are closely interwoven. Our internal rhythms, affecting our balance REM patterns and mental focus.

For epochs, Schumann's resonance have provided the orchestrating pulse for the life on this planet – our planetary heartbeat, which sets the tempo for health and well-being. Liquid crystals (DNA, brain ventricles and cellular structures) in the human body may operate as antenna for the detecting decoding such global and local ELF signals.

Age of Revealing and the Church Fathers

The Age of Revealing is a return to selfhood, devoid of all that is false and of denial. Even the church has been saying this for thousands of years:

- ⇒ **Origin (the Church Fathers 3rd century AD) “You yourself are even another little world and within you the sun and the moon and the stars.”**
- ⇒ **Corinthians: “You are the temple of God. For the temple of God is holy, which temple you are.”**
- ⇒ **Acts: “The most high dwells not in temples made with hands.”**
- ⇒ **Gospel of John: “The works I do, you do, and greater.”**
- ⇒ **Gospel of Thomas: “When you know yourselves, then you will be known, and you will know that you are the sons of the living Father. But if you do not know yourselves then you are in poverty, and you are poverty.”**
- ⇒ **The Vedics say “Self realisation is before god realisation.”**
- ⇒ **The Oracle of Delphi said “Know thyself!”**

The Return To The Self

A man in a dark suit is walking away from the viewer on a stone path that leads into a misty, ethereal landscape. The path is made of several stone steps and is surrounded by a soft, hazy light. In the background, there is a faint silhouette of a tree on the left and a large, rounded rock formation on the right. The overall atmosphere is one of solitude and contemplation.

The return to the Self is the end of all dependency (of all kinds), the ego must go along with the trappings and status artefacts of life.

☞ Nietzsche said: “The individual has always had to struggle to keep from being overwhelmed by the tribe. If you try it, you will often be lonely, and sometimes frightened. But no price is too high for the privilege of owning yourself.”

The Calendar and Synchronicity with the Stars

➤ **November 2006 – Pluto alignment with the galactic centre** (the roach cleaner) 5th day (this planet shows the lies for what they are. It rules what is hidden. It exposes the truth for what it is. A time of awakening and cleaning.) Now people need to be prepared for the psychic/psychological change in people (do not be afraid of the darkness).

➤ **Age of Aquarius in 2012**

The birth of Aquarius was birthed in 1999. Each age lasts approximately 2100 years. Jesus said that when his age was up to look for the water bearer and follow him to his house...meaning house of Aquarius in the Zodiac. At the end of every astrological age there is tremendous upheaval in the world. Pisces is also the end of the Zodiac, the 12th house of the Zodiac.

➤ **Entering the galactic plane**

happens every 26000 years. It is a time for 2000 years and we will suffer the effects of the increased light, energy, vibration from the centre of the Milky Way, which could lead to cataclysmic changes, a sweeping away of the cobwebs, a new golden age, new species development, a time of great learning and conscious expansion.

The Calendar and Synchronicity with the Stars

Sun and Earth changes

The sun now has a balanced magnetic field – its poles and equators have the same strength. Likewise, the earth magnetic fields are shifting and exhibiting signs that precede a magnetic pole shift which will bring about cataclysmic change.

22,12,2012 Venus sets and the Pleiades rise

Venus rising in 8th August 3114 BC (start of the Long Count & Cycle of Law) signified the start of the Forth Age (the current age of the earth). Orion will rise again on the horizon on the same date (Orion, along with Sirius, the Egyptians had great interest in)

Time and Its Changes

- **Terence McKenna – Timewave Zero**

- theory says that time is split between 'novel' and 'mundane' time events.
- time gets more 'novel' as it proceeds until everything becomes novel.
- A complex computer analysis of the I Ching revealed a hierarchy of 26 timewaves, (each one 64 times larger than the one below), which govern the unfolding of events in the universe.
- mathematical calculations ended the timewave 21,12,2012 for constant novel time (novel instead of mundane time) and this is end of the fifth world, end of the Mayan long count calendar.

- **David Sereda - Time waves are emitted by the brain**

- in lower state of brain wave activity (theta and epsilon), time passes incredibly quickly and it slows down. Huge amounts of time pass quickly.

- **Greg Braden - Schumann resonance speeding up**

- Schumann resonance is the energetic pulse of the earth which happens at the frequency of (7.4 Hz/sec).
- All life on the planet measures the passage of time by it and interestingly our brains operate at a frequency of 7.4Hz.
- This pulse has been measured to be speeding up and as it gets faster we perceive time to be getting faster.

What to look forward to

- **Expanded consciousness**
- **Indigo/crystal children**
- **The return of the Christ/Quetzalcoatl**
- **Increasing oneness**
- **Realisation that nothing real exists**
- **We control our DNA**
- **Manifestation of our desires.**
- **Peace and bliss.**
- **Rediscovery of Knowledge - Understanding geometry and symbology**
- **Science, Quantum Physics and the Universe**
- **A redefinition of who we are**
- **We are beginning to become aware of our conscious co-creation**

Fear and Intuition for the Future

If there is any fear or doubt - that is not your intuition.

Intuition is knowing.

There is no fear, Only certainty.

You know what to do without thinking.
