Phone number: (424) 203-8075 code 822940#

Dr. Susan Shumsky will join us on a Teleseminar on Tuesday, May 10 at 6:00pm Pacific time to lead a deep meditation for the midpoint of Night 2 of the 9th Wave. As we move from the germination of the 9th wave--Unity Consciousness--into its sprouting, we open to the potential of what we can be as individuals and as a planet. That potential can be known by asking our higher self, in meditation, "What is our true purpose?" If we can discover that during this period of germination, then when we begin to sprout, our direction will become clear. We will know with certainty what is the true divine plan of our lives. As a result, we will become capable of making wise decisions in our lives, purposefully, with peaceful confidence. During this meditation, we will begin to discover what that purpose is.

Dr. Shumsky is a best-selling, award-winning author, foremost spirituality expert, pioneer in the self-development field, highly-acclaimed and greatly respected professional speaker, New Thought minister, and Doctor of Divinity. She has authored Divine Revelation, Miracle Prayer, How to Hear the Voice of God, Exploring Chakras, Exploring Meditation, and Exploring Auras.

Dr. Shumsky has practiced self-development disciplines for over 40 years. For 22 years she lived in the Himalayas, the Swiss Alps, and other secluded areas, studying personally with enlightened master from India Maharishi Mahesh Yogi, founder of Transcendental Meditation and guru of the Beatles and Deepak Chopra. She was on Maharishi's personal staff for 7 years. She then studied New Thought and metaphysics for another 24 years and became a Doctor of Divinity. Dr. Shumsky has taught yoga, meditation, prayer, and intuition to thousands of students all over the world since 1970. Her website is www.drsusan.org
