2024 Winter Solstice

Channeled through Camille Albrecht December 20, 2024

The Winter Solstice begins in the Northern Hemisphere on 12/21/24 at 4:21 am EST

Greetings, it is I, Aca'u who speaks to you now.

Over the past year, I have spoken to you about the importance of recharging your batteries. I have suggested that you reflect upon your inner world, resolve that which needs to be resolved through acceptance and forgiveness, and then, nourish and restore yourself. This will enable you to flow unencumbered and with ease with the rapid changes coming in over the next few years.

The winter solstice time is also a time of reflection and preparation for the new beginnings coming with the spring equinox. The energies of 2025 and 2026 are powerful manifestation years. You will find that your intentions manifest quite rapidly. It is also a time of increased intuition, with your connection to the Divine more powerful than ever before. You and the Creator are one, now and always and this realization becomes more tangible to you as the new energies unfold. The veil between the two worlds thins dramatically. You will have increased access to Divine Force. Connect and trust the connection. Practice tuning into your High Self and trust the guidance given. The more you practice these connections, the stronger they grow. The Divine supports and encourages communion, so do reach inward.

In the coming energies of 2025, you will find the courage to take bold new steps onto a fresh path and break through challenges that perhaps you found insurmountable before. Your inner strength and fortitude, newfound determination, and self-reliance can help you move beyond fears and self-doubts to create for yourself a life you may not have thought possible.

Take time during this equinox to determine what it is you want in your life – and in your world over the next few years. No doubts, no fears. Let courage and Light and that pioneering spirit of adventure and possibility guide you. I would suggest that you enter a silent meditation, connect with your High Self, and ask for guidance as to what would be most beneficial for you in the

next few years. Perhaps there are some habits that you want to release and other habits that you would like to strengthen. Is there a character trait that no longer serves you? This is a wonderful time to assess where you are at, who you are now, and what you want to bring into your life over the next few years.

Trust in your ability to alter your life and the world. These are tumultuous times; of that, there is no doubt. Yet, you are here with purpose, and you were granted the opportunity to incarnate at this time of great change by your desire and by Universal Decree. As a Light Worker, your skills are needed to transform the negative that has come to the surface. Your awareness has increased and so has your power. Perhaps you will accept this as your calling over the next few years. Take the action a Light Worker takes. Create the thoughts, and foster the feelings of a Light Worker. This is a time to use your spiritual tools. And your greatest, most powerful tool is your mind. Engage in thoughts that promote a world in which you want to live.

The Light always works. It is God's love, the most powerful force in all the universes. And it is here for you to envelope yourself in, work with, and direct. The Divine Power is ever there to guide, support, and encourage you. With every single breath you take, you inhale the breath of God. Be aware. Permit it to fill you and guide you in all you do.

This is a time of preparation for new beginnings. Trust yourself. You are fully capable of success. As I tell you often, you have much Divine support and assistance available to you. Simply ask and you shall receive.

These are exciting times filled with possibility. We believe in your ability to succeed and ask that you call on us, your friends and helpers of the inner plane. Together, we can move mountains. So, let's move forward together, united, to create a world of Light. The new door awaits.

I bid you peace,
Aca'u
