Tip of the Week:

**Uranus in Gemini** as of **July 7** is the big news now. True to its unique and eccentric phenomenal reality associated with its 84-year orbital cycle, its influence and outer manifestation by transit is also unique and eccentric.

Uranus can prove to be a real shaker. Generally, Uranus's influence by transit tends to

trigger some form of ‘wake-up call’, inviting the reaction to be more aware in order to meet the challenges associated with the changes implied.

As with all planetary transits, some signs will fare better than others. The common advice regarding its transit is ‘expect the unexpected’.

However, its influence and deeper significance can be more fully understood in context to one’s Birth Chart.

Have a great week,

Michael

Since Uranus in Gemini is in your Solar 12<sup>th</sup> House, symbolic of the subconscious, the hidden reservoir of the mind, the result could amount to some degree of enlightenment.
